APPEALS FOR AID IN ITS EFFORT TO END FREIGHT JAM

Interstate Commerce Commission Asks For Help of Kindred Bodies

PATIENCE IS NECESSARY

May Require Days and Even Weeks to Start Anything Like Resumption of Normal Service

Washington, May 17.—The Interstate Commerce commission took its first step today toward breaking the freight blockade.

Telegraphic appeals were sent to all state railway and public service commissions, urging them to join hands with the government in lifting the burden, while the commission's force of inspectors was put to work to help secure accurate data respecting conditions at critical points. Virtually all the several hundred inspectors were assigned to aid in surveying traffic conditions at important gateways, where the flow of freight traffic was clogged. The commission also expected to be fully informed on the terminal situation at all cities by tomorrow night.

Going in with Hammer and Tongue

With increasing complaints from shippers and requests for assistance from the railroads themselves, the commission is understood to have determined to go into the freight tie-up with hammer and tongue. Officials, however, urged patience on the part of those watching for immediate results, since it may require days and even weeks to start anything like a resumption of normal transportation service. In its first attempt at freeing the maze of rail equipment, the commission probably will deal with local situations in the various cities through individual roads. This was expected at last, however, only until a general scheme can be worked out by which priorities and embargoes can be employed to restrain the onrushing stream of commodities waiting at every station.

Further suggestions of the railroads were given the commission at conferences with representatives of the railroads and shippers' organization officials. The fuel situation has slowly improved to the danger point, representatives said, and they proposed that the commission establish a general, though temporary, board for the movement of grain cars westward and counter movement of coal cars eastward.

Many Complaints Received.

"In the last few days," the statement continued, "complaints and requests for assistance have been received from shipping interests throughout the country, by letter, by telegraph, through members of congress and by personal appeal. These have been handled immediately by the carriers, and in many instances the inspectors of the commission have been employed upon the ground to help break the jam at some congested points.

"The commission today advised the Fire and Coal Exchange, with headquarters at Cleveland, Ohio, that there is a permanent necessity for cooperation between the carriers and shippers in handling coal and ore upon the railroads and lakes, along the lines followed in 1918, by means of the creation of an effective coal and ore pool, saying the record shows that continuance of existing arrangements means far reaching hardship and perhaps disaster, and suggesting that as an initial step, the interested parties should reestablish immediately a similar arrangement to that effect in 1918.

"Many requests have been received for information as to whether the commission contemplates hearings upon the applications filed by numerous important railroads last Saturday, asking the commission to exercise its emergency powers under the transportation act. The commission does not contemplate the holding of any hearings in the immediate future, but expects from time to time and as the facts develop to give such directions as seem warranted and necessary."

REPUBLICAN LEADERS TO DISCUSS POLICIES TODAY

Washington, May 17.—Republican platform declarations and policies will be discussed here tomorrow by some of the 150 members of the general advisory committee and Chairman Hays, of the national committee.

Besides platforms and policies, general subjects connected with the Chicago convention are expected to develop. Among those expected to attend the meeting is former Senator Beveridge of Indiana.

The committee recently sent out questionnaires on the platform.

Syracuse Papers Publish Without Advertisements

Syracuse, May 17.—Syracuse newspapers today published the following:

"On account of a shortage of printers, the three Syracuse newspapers are compelled, beginning Tuesday to issue editions greatly reduced in size.

"A newspaper's first duty is to its readers and therefore the aim is to publish all the news and features. By necessity, all display advertising must be eliminated. The newspapers will publish only classified advertising now standing in type, death notices, and legal advertising."

GONZALEZ REPORTS MONTEREY OCCUPIED

Federal Generals Flee Toward Border With Intention of Entering U. S., He Says

(By the Associated Press)

Mexico City, May 14, via Laredo Junction, May 17.—Occupation of Monterey, Victoria and Zacatecas by the liberal revolutionary forces was reported at headquarters of General Gonzalez Thursday night.

Generals who have been holding the Monterey region for the Carranza government are believed to be fleeing toward Matamoros with the intention of entering the United States. Gonzalez yesterday ordered military chiefs not to name new officials for collecting national funds of any government department. He took this step, it was said, to prevent payment to untrustworthy persons and to avoid later claims by foreigners for indemnification.

Washington, May 17.—Pablo Gonzalez's withdrawal from the contest for the presidency of Mexico, reported to the state department today, was regarded as the best indication that leaders of the defacto government desired to eliminate the danger arising from political rivalry. Further evidence of coordinate action was seen in the announcement that Manuel Pales, to whom oil producers have paid tribute for several years, had been appointed chief of military operations in the state of Tamaulipas.

Restoration of wire communication with the Mexican capital brought from the American embassy long reports on the developments. There was no word, however, as to the fate of Carranza, who has fled to the hills near Jalapa, with revolutionary troops on his trail.

The official advice was summarized by the state department as follows:

"The American embassy at Mexico City reported to the department of state today under date of yesterday that General Pablo Gonzalez had publicly surrendered his authority to the provisional president."

"In a manifesto made public yesterday, General Gonzalez announced that in order to preserve revolutionary unity, to restore tranquility to the nation, to eliminate the possibility of future conflicts, and to leave congress untrammelled in its election of a provisional president, he irrevocably withdrew his candidacy for the next presidential term and will surrender to the provisional president the authority which revolutionary conditions have forced him to assume."

PLAN GOMPERS-ALLEN DEBATE

Kansas Industrial Relations Court Will Be Theme of Argument Between Governor and Labor Chief

New York, May 17.—Arrangements for the proposed debate in Carnegie hall here May 28, between Samuel Gompers, president of the American Federation of Labor, and Governor Henry J. Allen of Kansas, were completed today. The thesis for the debate will concern generally the Kansas industrial relations court, and the compulsory settlement of labor disputes.

Mr. Gompers has selected the following persons to represent him on the committee of 20 citizens under whose auspices the debate will be staged: Hugh Frazer, Mrs. Sarah Conroy, James Duncan, Matthew Wahl, Frank Morrison and Peter J. Brady.

The following have been selected by Governor Allen: R. J. Caldwell, Fulton Cutting, William N. Chadbourne, Dr. Samuel McCune Lindsay, Colonel Theodore Roosevelt, Ogden L. Mills, Charles D. Hiles, George Gordon Battle, George W. Wickersham, Robert Erskine Ell, Paul M. Warburg, Herbert Hoover, Hamilton Holt, Tracey S. Lewis and Anton G. Hodepny.

Tickets for the debate will be equally distributed between Governor Allen and Mr. Gompers.

LITTLE PROGRESS IN TRIAL

Chicago, May 17.—The trial of 25 alleged members of the Communist labor party, charged with conspiracy to advocate the overthrow of the government entered its second week today with only two jurors accepted. The fourth venire of 100 men was summoned.

ALLEGED AUTO THIEF HELD

Orange, N. J., May 17.—Suspected of being the leader of a band of automobile thieves which has been operating in New York, Robert D. Hebert, of Orange was held by the police today in default of \$10,000 bail.

ENGLAND DEFINES PETROLEUM POLICY

Exclusion of Aliens From Control of Oil Resources Within Empire Dashes U. S. Hopes

Washington, May 17.—Exclusion of aliens from control of oil resources within the empire, government aid in developing new supplies in other countries, and restrictions against disposal of oil stocks now held by British nationals, are outstanding features of Great Britain's petroleum policy, the senate was informed today by President Wilson. The information, given in the form of a special report from the state department, was in answer to a senate resolution asking what disabilities attached to American participation in petroleum resources of the world. The government's petroleum policy of Great Britain, the report added, also contemplated financial and technical aid to pioneer companies.

The senate resolution, introduced by Senator Gore, Democrat of Oklahoma, requested the President also to say what diplomatic efforts had been made to remove the restrictions upon participation in oil development by Americans elsewhere than in the United States. Representations had been made to Great Britain concerning restrictions upon oil and development in the occupied section of Turkey, the report said, and had met with assurances that no discrimination against Americans would be allowed. With regard to Mexico, the department reported the last note of warning, which said that the United States "would not acquiesce in any proceeding resulting in confiscation of American oil holdings."

Observing that all the regulations in England and her possessions were aimed at restricting oil operations to control of British nationals, the report said "this form would seem to be justified in the viewpoint of international law, however, in politics it may be regarded reciprocity and international comity."

Senator Fowler previously had said that the local option provision was not at all satisfactory to him but had been inserted at the request of several New York city members of assembly, replied that "a large percentage of cities after finding the confusion the change of time causes, won't go on daylight saving."

Then the governor launched his attack on the assembly's action in passing the bill.

"I agree with the gentlemen who has just spoken," said the governor, referring to Raymond V. Ingersoll, secretary of the City Club of New York.

Mr. Ingersoll asserted that "circumstances under which this bill was passed in the assembly are, in themselves, a strong argument for the exercise of executive veto."

"It is obvious to anyone who watched this legislature that the action finally taken in the assembly did not represent the real views on the subject held by a majority of the members," the Governor added.

When it was declared by several speakers that the farm help insisted that their day's work end at the same time as the workers finished in the cities, the Governor asked if the help on the farm would not work an hour later at night if they started an hour later in the morning. Shouts of "No, no," came from all parts of the crowded chamber.

This led the Governor to declare that "we are not here to legislate in the interests of the whims of any one class."

Farmers Oppose Daylight Saving.

Farming interests lined up against the city and labor representatives in supporting the bill. Warnings were given by several representatives of farm and dairy organizations that a food famine threatened next winter, charges were made by C. W. Burkett, editor of the American Agriculturist, that "gasoline and amusement people are financing propaganda to defeat this bill," and other speakers declared that daylight saving curtails food production from 20 to 25 per cent.

Opponents of the repeal asserted that daylight saving is beneficial to health and happiness and that a "great majority of the people of this state are for daylight saving."

Daylight saving was characterized as "daylight wasting" by J. A. Bonnell of Cattaraugus county. "There are still 120 days left of the daylight wasting act," he said, "and I appeal to you to approve this bill. It is not a question of what prices for food will be if you don't, but of how much there will be to go around. The farmers will feed themselves first and you'll have to take what's left if you can get it through a railroad blockade."

SURROGATE NOTES H. C. OF L.

New York, May 17.—Judicial notice of the increased cost of living was taken by Surrogate Foley here today, when he increased the yearly allowance of Robert A. and Howard W. Scott beneficiaries of a trust fund under the will of their father, the late Robert A. Scott, from \$5,000 to \$7,500 each. Their mother, Mrs. Leone Scott, declared she was unable to support them on \$5,000 each and asked to be reimbursed for \$18,100, which she said she spent over their allowance last year, but this was denied.

ISSUES ARE OVER-SUBSCRIBED.

Washington, May 17.—Subscriptions to the last issue of treasury certificates of indebtedness have exceeded the amount sought by the treasury by approximately \$25,000,000. Treasury officials expressed satisfaction tonight at the response to the offering of certificates which were dated May 17, maturing November 17, and bear interest at 3 1/2 per cent.

The minimum amount sought by the treasury in this issue was \$19,000,000.

ENCOURAGE OIL DEVELOPMENT

Washington, May 17.—Organizations of the United States Oil corporation, modified on the plan of the Shipping board, to encourage and stimulate development by Americans of oil lands outside the United States, would be authorized under a resolution introduced today, by Senator Phelan, Democrat of Ohio.

SMITH ATTACKS DAYLIGHT SAVING REPEAL MEASURE

Scores the Assembly At Hearing For Passing Fowler Bill

FARM FORCES LINE UP

Charge "Gasoline and Amusement People" Alone Want the New Time, While Workers Don't

Albany, May 17.—The action of the assembly in passing the Fowler bill, designed to repeal the daylight saving law, although giving local option to municipalities, was "a cold-blooded and deliberate compromise with a principle in an effort to carry water on both shoulders," Governor Smith declared today at the hearing before him on the measure.

Governor Smith questioned many of the statements of speakers supporting the repeal. It was while J. Samuel Fowler, introducer of the bill, was explaining the measure, that Governor Smith interrupted him.

"What would happen if this bill becomes a law and the factories in cities go on daylight saving," he asked when Senator Fowler declared that "labor follows the clock, even though the farmer may not."

Governor Attacks Assembly.

Senator Fowler who previously had said that the local option provision was not at all satisfactory to him but had been inserted at the request of several New York city members of assembly, replied that "a large percentage of cities after finding the confusion the change of time causes, won't go on daylight saving."

Then the governor launched his attack on the assembly's action in passing the bill.

"I agree with the gentlemen who has just spoken," said the governor, referring to Raymond V. Ingersoll, secretary of the City Club of New York.

Mr. Ingersoll asserted that "circumstances under which this bill was passed in the assembly are, in themselves, a strong argument for the exercise of executive veto."

"It is obvious to anyone who watched this legislature that the action finally taken in the assembly did not represent the real views on the subject held by a majority of the members," the Governor added.

When it was declared by several speakers that the farm help insisted that their day's work end at the same time as the workers finished in the cities, the Governor asked if the help on the farm would not work an hour later at night if they started an hour later in the morning. Shouts of "No, no," came from all parts of the crowded chamber.

This led the Governor to declare that "we are not here to legislate in the interests of the whims of any one class."

Farmers Oppose Daylight Saving.

Farming interests lined up against the city and labor representatives in supporting the bill. Warnings were given by several representatives of farm and dairy organizations that a food famine threatened next winter, charges were made by C. W. Burkett, editor of the American Agriculturist, that "gasoline and amusement people are financing propaganda to defeat this bill," and other speakers declared that daylight saving curtails food production from 20 to 25 per cent.

Opponents of the repeal asserted that daylight saving is beneficial to health and happiness and that a "great majority of the people of this state are for daylight saving."

Daylight saving was characterized as "daylight wasting" by J. A. Bonnell of Cattaraugus county. "There are still 120 days left of the daylight wasting act," he said, "and I appeal to you to approve this bill. It is not a question of what prices for food will be if you don't, but of how much there will be to go around. The farmers will feed themselves first and you'll have to take what's left if you can get it through a railroad blockade."

SURROGATE NOTES H. C. OF L.

New York, May 17.—Judicial notice of the increased cost of living was taken by Surrogate Foley here today, when he increased the yearly allowance of Robert A. and Howard W. Scott beneficiaries of a trust fund under the will of their father, the late Robert A. Scott, from \$5,000 to \$7,500 each. Their mother, Mrs. Leone Scott, declared she was unable to support them on \$5,000 each and asked to be reimbursed for \$18,100, which she said she spent over their allowance last year, but this was denied.

The minimum amount sought by the treasury in this issue was \$19,000,000.

BLAME LAX MORAL LAWS FOR THE DIVORCE EVIL

Large Number of "Hasty and Foolish" Marriages During War, Baptists Are Told

Washington, May 17.—Moving pictures, lax laws and intemperance were blamed for the numerous divorces in the United States, by the committee of temperance and social service in its report to the Southern Baptist convention today. Enactment of a uniform code of marriage and divorce laws was recommended.

Quoting from government statistics, the report showed that in 1918, when the last figures were gathered, there were 112,036 divorces.

Where later figures available, the report continued, "the picture would doubtless be darker still, certainly this would be true of 1919, owing to the large number of hasty and foolish marriages contracted during the war."

As a primary cause of "this sad condition," the report denounces the motion picture as now produced, declaring that many of the films are based on the "eternal triangle" and the suggestion of disregard if not an open breach of the marital relation."

Liquor has been "one prolific cause" of divorce, according to the report, but this cause is now removed, it says, "if we shall demand the enforcement of the law."

Laxness of the laws of marriage and divorce is "unquestionably one of the most fruitful causes of the prevalent and growing divorce evil," the report states, emphasizing the need of better laws regulating marriage.

The report recommends among other things the publishing of the marriage bans for at least 30 days before the rite can be celebrated; physical examination of each party by a physician and the establishment of an uniform code which as nearly as possible "should come to the basis of bible teaching concerning the ground of divorce with the right of marriage, and that in all other cases when divorces be granted it be without the right of remarriage."

"NICKY" QUILTS JAIL AFTER GIVING BOND

Will Appear Before U. S. Commissioner Today to Answer to Contempt of Court

New York, May 17.—Julius W. ("Nicky") Arnstein, leading man in New York's five million dollar bond plot drama, spent tonight at home. After passing two days and nights in the Ludlow street jail, because of his failure to obtain \$25,000 bail demanded by the federal court in bankruptcy proceedings against him, he finally succeeded in obtaining a surety bond.

Arnstein, who surrendered himself at the district attorney's office Saturday after a nation-wide search had been made for him for two months, previously had obtained bail of \$75,000 required by state courts to insure his release on charges of criminally receiving \$42,000 worth of stolen securities.

Earlier in the day, Arnstein was taken before Federal Judge Knox for arraignment in alleged contempt of court proceedings because of his refusal to answer questions asked him before United States Commissioner Gilchrist Saturday by counsel for the surety companies, which instituted the bankruptcy proceedings against him. Judge Knox ruled that Arnstein would have to answer all questions except those that might tend to incriminate him under the federal law. He has been summoned to appear before Commissioner Gilchrist again tomorrow morning.

"Nicky" was accused of having stolen "over \$1,000,000" when he faced the contempt charges in court today. Saul S. Myers, counsel for a number of surety companies which have instituted involuntary bankruptcy proceedings against Arnstein, declared that the defendant's refusal to tell where he had been while away from New York baffled efforts to recover securities missing from New York's financial district.

"We charge that this defendant stole over \$1,000,000," Myers said. "We believe he has gone to banks and trust companies and deposited this property."

FIRST LOCOMOTIVE IN THE STATE NOW ON EXHIBITION

New York, May 17.—The Dewitt Clinton, the first steam railroad locomotive to be operated in this state and the second in the country, today received the second great humiliation of its life.

In 1827, in attempting an "official run" from Albany to Schenectady, it broke down and was assisted to its destination by horses. Today, almost a century later, it was dragged through the streets of New York, from the shops where it has been stored, to the Grand Central station, where it has been placed on exhibition by large motor trucks, the horse's successor.

The old "iron horse," without its tender, weighs only 2,620 pounds. In winning the distinction of being the first successful locomotive in this state, it attained a speed of almost 20 miles an hour between Albany and Schenectady.

Redrafted Appropriation Bill Is Passed By House

Washington, May 17.—The \$104,000,000 legislative, executive and judicial appropriation bill was passed unanimously by the house today after it had been re-drafted by the appropriations committee to meet the objections that led to its veto last week by President Wilson. The President, in his veto message, held that congress sought by a rider to interfere with executive functions in giving the joint congressional committee on printing supervision of government publications. The bill now goes to the senate.

EMPLOYER GIVES VIEW ON RAILROAD WAGES

Admits Some Men Need More Pay But Explains Higher Rates Must Be Charged

Chicago, May 17.—The opening statement of the employer's side of the railroad wage question was presented today before the United States railway labor board, which opened hearings in Chicago following a recent two weeks' session in Washington at which representatives of railroad employees were heard.

E. T. Whiter, chairman of the conference committee of the railroad managers, read a prepared statement in which he said that wage advances should be granted to many railroad workers to enable them to meet the high cost of living, after which the board adjourned until Tuesday.

According to Mr. Whiter, the total demands of the rail employees, including new demands of approximately 25 per cent would, if granted by the labor board, not only absorb the revenues expected from the increased freight rates asked for by the Interstate Commerce commission, but might force the carriers to ask for additional rate increases.

He pointed out on behalf of the rail executives that each \$100,000,000 in rail expenses represented a three per cent increase in freight rates. He said that for every cent an hour increase in wages to rail employees, \$50,000,000 was added to railroad payrolls.

The increase in employee' in 1919 over those of 1918, he said, was nearly 45 per cent. The railroads' payrolls in that time increased 14.1 per cent.

The great increase in the cost of living, Mr. Whiter said, was an evident fact, and wage adjustments must take this factor into account. But, he said, the peak in the cost of living had probably been reached and that the board must consider the situation which would be brought about when the cost of living declined. On this subject he said:

"With the forces now at work to bring about a reduction in the high living cost, with the now thoroughly aroused public sentiment, with the organized movement to curtail inflation, it is next to impossible to believe that the peak in the increase in the cost of living has not been reached; and a procedure that would fix railroad wages permanently on the basis of the present living cost could hardly be defended. And unless some automatic principle is embodied in the award of your board that will operate to readjust basic rates as living costs go back towards the pre-war basis, or unless something is incorporated that will provide for a review of the award after some specified period, any wage rates that may now be fixed by your board would be practically permanent rates."

"It is not at all intended here to say that any wage rates that your board might award to meet the increased cost of living, should be taken away again as fast as, and in the same percentage as, the cost of living comes down. This would be in effect to decree that railroad employees should remain in the same comparative situation they were in before your award. We are not asking nor suggesting this, but if as costs of living go down, toward the pre-war basis, a less than proportionate decrease in basic wages were provided for, the employees would be better off, as compared with pre-war conditions, in spite of such reductions."

EXPRESS COMPANY WOULD RAISE ITS RATES 10 TO 25 PER CENT

New York, May 17.—A hearing on a petition filed with the Interstate Commerce commission by the American Railway Express company, asking permission to raise rates 10 to 25 per cent, was held here today before F. H. Barclay, commission examiner.

Statistical data showing increases in operating costs was presented by Charles A. Lutz, vice president. These increases, he testified, amount to 25 per cent since 1913. His examination was postponed until June 23 to permit commercial organizations contesting the proposed increase to examine the data.

COOMBS BREAKS AIR RECORD.

Minneapolis, May 17.—The world's air plane altitude record for a pilot and three passengers was broken here today by Clarence E. Coombs, who rose to the height of 17,150 feet. This state, it attained a speed of almost 20 miles an hour between Albany and Schenectady.

SIMS SEEKS TO PRUSSIANIZE THE NAVY, IS CHARGE

Secretary Daniels Accuses Him of Effort to Usurp Power

QUOTES FROM REPORTS

Tells Congress If It So Desires to Put in Admiral As Member of Cabinet

Washington, May 17.—Desire "to Prussianize the navy department" was ascribed by Secretary Daniels today as one of Rear Admiral Sims' underlying motives in criticizing the department's conduct of the war. The secretary, testifying before the senate naval investigating committee, also charged that most of the testimony supporting Admiral Sims' position was from officers who wished to remove civilian control of the navy department and make the secretary a "rubber stamp."

"The original charges showed hostility to certain officers and a desire to damage ranking officers who directed the operations during the war," said Mr. Daniels, speaking of Admiral Sims critical letter of January 7, "and the evidence has disclosed a desire to misrepresent the secretary of the navy because he was not a rubber stamp secretary. But deeper than egotism and prejudice, you will find, a deep-seated determination to organize the navy department upon the approved Prussian plan by giving all power to the military and taking all away from the civilian."

Officers After More Power.

About the only piece of advice former Secretary George von L. Meyer gave him when he succeeded him, Mr. Daniels asserted, was the admonition that there were officers in the navy who wished less power for the civilian secretary and more for themselves.

"Power lies here," Mr. Daniels said Meyer told him as he pointed to the secretary's desk, "and it should remain here."

He did not fully understand what his predecessor meant, until a few months later, when "Admiral Fiske and other disciples of the von Tirpitz system of naval control, sought to organize the American navy, on the Prussian plan," Secretary Daniels said.

Rear Admiral Sims' original charges against the navy department showed hostility toward certain officers and a desire to damage the ranking officers who directed naval operations during the war, the naval secretary declared, adding that "the evidence has shown a desire to discredit the secretary of the navy because he was not a 'rubber stamp' secretary."

If congress wished to depart from the "traditional American policy" of civilian control of the navy it should do so "directly and clearly and without pretense," said Mr. Daniels, by making an admiral secretary of the navy and a member of the President's cabinet. The most ardent advocates of the general staff system had not advocated going so far, however, because they wished to keep a "rubber stamp" civilian as a figurehead in the secretary's office, he declared.

Daniels Not the First.

The witness quoted from reports and writings of other naval secretaries to show, he said, that they too struggled against substitution of the general staff system.

"If congress believes that civilian control is a great evil," said Mr. Daniels, "if it believes that the policy which has prevailed since the foundation of our government should be reversed and that the navy should be removed from civilian control, let it follow Sims' lead, create a general staff on the German model and name some von Tirpitz to rule the navy. Let us have no camouflage about it. Abolish the position of secretary of the navy or provide some admiral, shall fill that post with a seat in the President's cabinet. That would be the frank and open way to do it rather than to put some Sims in control of the navy, with a nominal secretary as his clerk, messenger boy and rubber stamp."

"If this committee desires to raise that issue, I am perfectly willing to do so congress and the country and let the American people and their chosen representatives make the decision."

EDITOR OF "TOWN TOPICS," FORMER CONGRESSMAN, DEAD

Morrisville, N. J., May 17.—William Dalton Mann, editor of "Town Topics," died at his home here today from complications following an attack of influenza.

Upon the outbreak of the Civil war, he entered the Union army as a captain and subsequently organized and commanded the Seventh Michigan cavalry with the rank of colonel. He owned the Mobile Register for a long time and served as a congressional representative from Alabama. He also founded the Smart Set magazine.

Colonel Mann invented the "four door car" in 1871, from which the present-day Pullman and sleeping cars originated.

Results of Yesterday's Games

NATIONAL LEAGUE
PIRATES WIN LONG GAME.

Although Giants Make Two Runs in Fifteenth, Pittsburgh Goes One Better.

Pittsburgh, May 17. — Pittsburgh defeated New York, 7 to 6, in a 15-inning game here today. Cooper and Toney were both batted hard and gave way to Carlson and Douglas, and they in turn retired in favor of Ponder and Barnes. With the score 4 to 1 in the fifteenth inning, New York scored twice on a hit and wild throw by Grimes and Ponder. In the last half of the fifteenth, Pittsburgh scored three runs on Bigbee's triple, a pass to Carey, singles by Whitte and Eaton, and a long hit by Grimes that was good for three bases but counted as a single only, as the winning run was driven in from third base. Score: New York 0000000000000—5 12 2; Pittsburgh 0000400000000—7 13 2.

Batteries—Toney, Douglas, Barnes and Snyder; Cooper, Carlson, Ponder and Schmidt.

Other games postponed, wet grounds.

AMERICAN LEAGUE
TIGERS DOWN MACKMEN.

Five Home Runs, Four Triples and Three Doubles Give Detroit Victory.

Philadelphia, May 17. — Five home runs, four triples and three doubles enlivened Detroit's 9 to 7 victory over Philadelphia today. Ira Flagstead knocked out two home runs. Score: Detroit 420010100—9 3 3; Philadelphia 000011022—7 10 2.

Batteries—Dauss and Stange; Kinney, Rommel, Bigbee, Moore and Perkins, Myatt.

WILD THROW PROVES FATAL.

Results in Boston Taking Second of Series from Chicago, 2 to 1.

Boston, May 17. — Boston took the second game of the series from Chicago, 2 to 1, today. The winning run came in the last of the eighth, as a result of Schatz's wild throw to catch Monosky going to first on a bunt. Monosky reached third and scored on Hendrix's single to left center. The visitors scored in the eighth on McMillen's double and Schatz's single. In the ninth, Jackson tried to score

from first on Felsch's double to the left field fence, but was caught at the plate. McNally felded brilliantly. In the first, he singled, took third on McNosky's single, and scored at the head of a double steal. Score: Chicago 0000000010—1 8 3; Boston 1000000012—2 7 9.

Batteries—Wilkinson and Schalk; Jones and Walters.

ZACHARY PROVES EFFECTIVE.

Although He Let Down in Second, St. Louis Triumphant, 2 to 1.

Washington, May 17. — St. Louis took a closely-played game from Washington, 2 to 1, today, Zachary proving effective except in the second inning.

St. Louis 0200000000—2 9 2; Washington 0100000000—1 6 2.

Batteries—Shocker and Seresid; Zachary, Erickson and Gharriy.

Only three games scheduled.

INTERNATIONAL LEAGUE

Baltimore, 9; Rochester, 4.
Buffalo, 2; Reading, 2, (16 ins).
Toronto, 1; Jersey City, 6.

AMERICAN ASSOCIATION

Minneapolis, 2; Columbus, 1.
St. Paul, 11; Toledo, 10.
Kansas City, 7; Indianapolis, 4.
Louisville-Milwaukee, rain.

EASTERN LEAGUE

New Haven, 4; Bridgeport, 2.
Hartford, 2; Worcester, 1.
Albany, 6; Waterbury, 2.
Springfield, 5; Pittsfield, 4.

"Y" TEAM DEFEATS HIGH SCHOOL.

Nabs First Game of Season by Eleven-Inning Bat Fests, Final Score Being 24 to 11.

In an 11-inning battle at the fair grounds last Saturday afternoon, the Y. M. C. A. baseball team won its first game of the season from the Oneonta High School, 24 to 11. The game was fast and close most of the way and was featured by some good playing on both sides. In the eleventh inning, however, there was a "wild" spurt which gave the "Y" boys the victory.

Bolton opened the game as pitcher for the Y. M. C. A., but threw his arm out in the first two innings and was relieved in the third by Pedrone, who held the High School scoreless from the fourth inning on. In the first two rounds, the High School brought in nine runs and two more in the third, while the "Y" scored ten tallies, thus making the score at the end of the third 11-10. This score was unchanged until the first half of the ninth, when, with one man on base and two down, Merchant, catcher for the "Y" team, knocked out a double, which brought in Robinson from second base, thus tying the score. Both sides were held scoreless in the tenth, but in the eleventh the association men went on a batting rampage and by the time the High School boys recovered they had brought in 12 runs. The "Y" men were kept busy running around the bases in an almost continuous stream, and the High School boys seemed unable to prevent them. In their half of the eleventh, O. H. S. again received only a "goose egg."

One of the features of the game was the difficult "shoe string" catch made by Walker, substitute right fielder for the "Y." Another exhibition of arm work was the playing of VanWise and Shaw, respectively short stop and second baseman for the "Y," they making four double plays during the game.

Despite their failure in the eleventh, the High School team put up a good fight during most of the game and are deserving of some credit for the effort they made. James Perry played a fine game on first, besides knocking out a home run and two bagger, and Boardman also made a home run for the Y. M. C. A. team.

The "Y" team was enthusiastic over its first start of the season, the victory being an especially commendable one since four of their regular men were unable to play. The management is arranging for a game here next Saturday, but it is not definitely known yet whether a team will be secured.

The next definite engagement for the "Y" is on May 23, when the team goes to Hartwick Seminary to play the seminary team there.

During the game, Burton Hulbert, a spectator along the side lines, was hit on the nose by a batted ball. At first it was thought that the bone had been broken, but examination later by Dr. J. C. Smith showed that fortunately this was not the case.

The line-up and score by innings of last Saturday's game follow:

Y. M. C. A.—VanWise, ss, 2b; Merchant, c; Boardman, 1b; If; Pedrone, ss; p; Davidson, 3b; Bolton, p; 1b; Shaw, 2b; Robinson, rf; Smith, cf; Walker, sub, rf.

High School—A. Bishop, ss; Brownell and Martin, cf; Webb, c; Perry, 1b; Farone, 2b; Dillello, 2b; Delaner, lf; R. Bishop, p and lf; Safford, p and lf.

BASE BALL HAPPENINGS

MANAGER WEIDMAN OFFERS TO WAGER \$500 WITH E. J. TEAM.

Outposts for Players, New Score Board and Other Improvements at Elm Park — Opening Game at Norwich.

Work on Elm park is progressing very favorably and it is expected that the infield will be finished this week. The two dugouts for the players and the score board in center field are nearly completed.

A squad of players is working out daily to get in condition for the opening game at Norwich Sunday, May 30, and for the Decoration day game at Elm park, on Monday, May 31.

Manager Weidman of the local team recently called on the sporting editor of the Binghamton Sun, W. Homer Thorne, and stated that he would play either the E. J. Johnson team or the Binghamton Imperials a seven game series for a purse of \$1,000, and left \$500 with Editor Thorne as Oneonta's portion of the purse.

A sport editorial in the Sun of Friday has the following to say on the subject:

Will Ed Fischer's E. J. A. A. baseball team call the Oneonta baseball team's \$500 bluff and play the up-staters their desired seven games or will the Cobblers crawl in their shell and "pipe down?" Will Lynch's Imperials overcome their diamond difficulty and come across with the \$500 simoleons and meet the Oneonta aggregation on the diamond, or will they too call a retreat?

These two questions have been perplexing fandom ever since Manager Weidman came to Binghamton on Tuesday night and loudly proclaimed his baseball superiority with 500 cold dollars to back up his assertions.

I did not see Fischer yesterday to find out from him just how he feels about the proposition, but the almost unanimous opinion of the shoetown players can be summed up in two words, "Play 'em!"

I talked with Mr. Higgins of the Imperials on the phone last night and here is his proposition.

"I'm going to call Weidman's bluff if I have to plank down the \$500 and play all seven games on the Oneonta diamond. I'm not going to let him get away with his challenge without

a call. I don't know just what we will do about getting a diamond, but I gave Mr. Weidman my assurance that we would play his team, and I offered to bet him another \$1,000 that we'd beat him."

Thus is the first day's happenings in an interesting baseball controversy. Manager Weidman has absolute faith in the ability of his team to trim anything Binghamton, Johnson City or Endicott has in a baseball way, and he has oodles of jack to back his faith. Furthermore, the Oneonta team won't be together before the first of June, and local teams will have ample time to make up their minds whether their team is in a class with the Oneonta aggregation.

Although Fischer's team belongs to the American Industrial Athletic association, an organization which stands for the promotion of amateur athletics, Bill may be able to overcome this part of the hitch by interesting others to back his team and in the event that he does, then watch the smoke of the E. J. A. A. outst.

I wonder if Manager Weidman knows what kind of an aggregation Bill has gathered together? Five hundred berries will tell.

NEARLY A DEADLOCK
ON STOCK EXCHANGE.

Neither Long or Short Interests Show Any Appreciable Change At Dull Close.

New York, May 17.—Conditions approaching a state of deadlock prevailed in the stock market today, neither the long nor short interests showing an appreciable change at the dull and irregular close.

The industrial situation recorded no material change from recent tense conditions, western and southwestern manufacturers reporting further slowing-down of activity, mainly in consequence of the railroad tie-up.

Stocks made their extreme declines in the morning, when oils, motors, steels, equipments and shippings reacted 2 to 5 points, standard rails losing 1 to 2. Food issues were firm in anticipation of a ruling on the Volstead act by the supreme court, but fell back at the finish, when it became known that action again had been deferred.

Liberty bonds and Victory notes were weak, mostly at new low records, and the general domestic list was easier, foreign issues also tending downward.

son at Edson Corners Sunday. — The Ladies' Aid society of the Methodist Episcopal church will meet with Mrs. Seebor Bates Thursday afternoon. Ladies please bring refreshments. All are invited. — Mr. and Mrs. Albert All of Worcester were guests of Mr. and Mrs. C. J. McCollister Sunday. — Mr. and Mrs. T. A. Hoose and Mr. and Mrs. C. J. McCollister visited at the home of S. H. Hoose near Mt. Vernon Saturday. — Mr. and Mrs. Nellis Garlock were guests of Mr. and Mrs. John Robinson Sunday. — The next meeting of the Westville Home Economics club will be held at Grange hall Wednesday and Thursday, May 26 and 27. This will be a clothing school. The object of this clothing school is to do dyeing, stain removing, remodeling, millinery, making of clothing, etc. Please bring refreshments for dinner.

PORTLANDVILLE POINTERS.

Portlandville, May 17. — Mr. and Mrs. Frank Allison and mother called on Mrs. C. M. Allison Saturday afternoon. — Miss Alice Stanhouse has moved her household goods from rooms in Mrs. W. R. McLaury's house to the C. D. McLaury residence. — Mrs. Laura Brown, who has a position in Oneonta, is now boarding at her home here, making daily trips to the city via the motor bus. — The many friends of Miss Elizabeth Palmer, primary instructor in our school for the past two years, extend to her their heartfelt sympathy in the loss of her mother, Mrs. Belle Palmer of Oneonta. — Guests at F. C. Burdick's over the week-end were Paul Chester of Otego, Miss Helen London and Mr. and Mrs. Roscoe Burdick of Oneonta, and Mr. and Mrs. David Gleade of Westfield, Mass. — Mr. and Mrs. Mead left Westfield at 6:30 p. m. Saturday and arrived here at 5:30 a. m. Sunday. — Mrs. Mary Ferguson, who has been in poor health since February, suffered a relapse last Thursday and has been confined to her bed since that time. At present writing she is im-

proving. — Mr. and Mrs. F. H. Marks of Niskayuna, this state, who have been guests of Mr. and Mrs. W. L. Wellman and other friends in this vicinity, returned home Sunday. — News was received here today of the death of Mr. McCord of Dayton, Ohio, son-in-law of the late Rev. D. E. Powell. — Mr. and Mrs. McCord have been doing missionary work in Japan for many years. — Mr. and Mrs. Bowles of New York are visiting her parents, Mr. and Mrs. D. W. Whitner. — Mr. and Mrs. Emilius Hunt have closed their home here, and have gone to New Lisbon to assist Arthur Gardner and mother for a few weeks. — Nelson Cronkrite has been confined to his home for several days, suffering from a severe cold. — The Woman's Home Missionary society will meet with Mrs. Harriet Van Dusen Thursday afternoon. — Union prayer meeting at the Methodist Episcopal church Thursday evening. — The choir will go to Milford Center Friday, evening for rehearsal, preparatory to the decoration service on Sunday. — Rev. W. W. Ward will conduct the musical part of the services, and Rev. Elwood will deliver the memorial address in the Baptist church Sunday morning.

UNADILLA'S NEW BAKESHOP.

Albert Center of Hartwick Opens Modern Bakery—Baseball News. Unadilla, May 17.—Albert Center has purchased the oven in the Houck block on lower Main street and has opened a new bake shop here. Although Mr. Center is a young man, from samples of his baked goods we can vouch that he is a good baker. He comes from Hartwick, where he has had three years' experience. He will build a modern bakery in our town, the lack of which has been long felt.

Baseball Chatter.

At a meeting of the baseball team held Friday evening, it was decided to hire the Marcellus lot for a ground and pay \$50 for the use of it. It was also decided that there would be no out of town players hired and no one should play on the team but the local boys. The members of the team and other citizens started work Monday evening on laying out the field and

leveling it off. The baseball season opened here Saturday afternoon when the High school played and beat the Windsor High school. At the end of the 9th, the score was 7 to 1 and Clyde Olds, through good team work, made the run that brought the local team the victory.

The town team is looking for a home game Monday, May 31.

HARTWICK HAPPENINGS.

Pound Party for Christian Minister—Miss Leta Edmunds Honored.

Hartwick, May 17.—Last Friday evening, about 30 members of the Christian church of this village surprised their pastor, Rev. J. A. Dillon, and his wife, with a Pound party. It came as a complete and pleasant surprise to Mr. and Mrs. Dillon, who very much appreciate this evidence of good will on the part of their parishioners.

Shower for Bride-to-Be.

Miss Laura Ingolsby gave a variety shower at her home Friday evening in honor of her friend, Miss Leta Edmunds, who is soon to marry Howard E. Miller. About 20 members of the Jones Crossing club met and enjoyed a pleasant evening. Delicious refreshments were served. Before departing at a late hour, the guests extended best wishes to Miss Edmunds for her future happiness, and left several useful gifts.

The table of gifts was draped in pink and white with pink carnations. In the center was the bride's cake of the same colors. A buffet luncheon was served.

Worcester D. A. R. Meeting.

Worcester, May 17. — The regular monthly meeting of the Iroquois chapter, D. A. R., will be held at the residence of Mrs. Melville Griggs Tuesday evening, May 18, at 7:30 o'clock. Mrs. Bess Langdon will be the assisting hostess. Subject: "Architecture in American Homes," by Mrs. S. M. Flint and Mrs. Estella Ritton.

A report of the D. A. R. Continental congress has been received from the delegate, Mrs. John Howe, who is still in Washington, and will be read at this meeting.

DELAWARE COUNTY NEWS

DELAWARE TRIAL JURORS

Drawn for Term of County Court to Be Held in Delhi During June.

Following is a list of trial jurors drawn at the county clerk's office in Delhi, to serve at a trial term of county court, to be held at the court house in Delhi, in and for the county of Delaware on the first Tuesday of June: J. B. Warner, Franklin. Harry Fraser, Delhi. Fred Benedict, Sidney Center. William Dillon, Delhi. Charles Carroll, Arena. A. Schrier, Long Eddy. Arthur Delmett, Rock Rift. R. L. Holcomb, Delhi. George B. Peaster, Delhi. R. D. 2. George N. Barnes, Walton. R. D. 1. Thomas E. Travis, Walton. R. D. 3. J. A. Topping, Jefferson. Reuben Johnston, Peapackon. William Smith, Walton. Gideon Miller, Bovina Center. John Constable, Delhi. Herman Bogart, Downsville. Harvey C. Burgin, Bovina Center. George Swartout, East Branch. Walter G. McDivitt, Bovina Center. Ira D. Lawrence, Kelly Corners. Charles Loker, Beerstown. Charles Jacob, Sidney. John Ostreich, Walton. T. L. Carrick, Long Eddy. Isaac D. Nutt, Walton. J. MacMore, Rosbury. E. W. Simmons, Bloomville. V. B. Thomas, French Woods. Charles Walder, Deposit. Will Rathbone, Davenport Center. Elmer E. Faulkner, New Kingston. Teiford Sanderson, Walton. Homer Shults, Walton. John Thomas, Hale Eddy. C. C. VanValkenburgh, Sidney Center.

From present indications, the June term of county court will be a busy one—several criminal cases and a number of civil cases are expected to come before court and jury at this time.

DAVENPORT CENTER.

Davenport Center, May 17. — Mr. and Mrs. James Simmons of Binghamton, who have been guests at G. E. Simmons for a time, left Monday to visit friends at West Davenport. — Mr. and Mrs. Harlow Munson and

three children and Mr. and Mrs. George B. Fish of Oneonta were guests Sunday at James Utters. — Mr. and Mrs. M. A. Potter, Mrs. R. A. Potter and daughter, Dorothy, were guests Sunday at Alton Potters. — Mr. and Mrs. M. C. Hebbard were at Youngs last Thursday to attend the funeral of Vernon Scott. — Adelbert Shelly attended the funeral of Mrs. VanZandt at North Kortright Thursday. — Mrs. Benjamin Johnson of Fergusonville spent last Thursday with Mrs. H. S. Olmstead. — The receipts from the "Up-To-Date" social were \$15. — Mrs. Frank Hotelling of Cooperstown and Mrs. Alida Pearsons of Oneonta were guests of Mrs. Mary Pearsons Saturday. — Mrs. Samuel T. Hamilton of Coxsackie, Mrs. Ella Mackey of North Kortright, Miss Marian Henderson of Delhi and Mr. and Mrs. Nelson Thomson of Delhi were recent guests of Mr. and Mrs. Robert Henderson. — Mr. and Mrs. J. Joseph Telesca of New York city are guests of her uncle, Harry Falk, and mother, Mrs. Snyder. — Frank Simmons of Binghamton and Mr. and Mrs. Charles Simmons of Sidney were callers at G. E. Simmons Sunday. — Mrs. H. S. Olmstead was a guest of Mr. and Mrs. G. E. Moon Saturday. — The Ladies' Aid society will meet with Mrs. Eva Mabey Saturday afternoon for work. — H. B. Harrington has moved his family from Oneonta to Charles Munson's house. — The Epworth league will hold a business meeting with Mrs. H. S. Olmstead Wednesday evening.

GIRL SWALLOWS PENNY.

But Young Child of Mr. and Mrs. Korger of Hobart Is Soon Relieved.

Hobart, May 17. — The two-year-old daughter of Mr. and Mrs. Korger had the misfortune to swallow a penny Sunday about noon. Dr. Dart was called and took the child to Oneonta, where the X-ray was used, which showed the penny lodged, but they succeeded in getting it into the stomach, and the child was made as comfortable as possible.

Mrs. Allen Surprised.

Seven lady friends of Mrs. H. E. Allen tendered her a little surprise birthday party Saturday afternoon. After a social hour, refreshments were served and Mrs. Allen was presented with a lemon fork and a five dollar gold piece as tokens of remembrance.

Notes.

Dr. G. L. Hubbell was a professional caller in Oneonta today. — Mrs. Charles C. Flaesch of Unadilla was a Hobart caller today.

AT GRAND GORGE.

Grand Gorge, May 17. — Mr. and Mrs. Harry Ennist and daughter, Helen, spent the week-end in Kingston. — Mr. and Mrs. Francis Morris have returned home after spending a short time with friends in Ashokan and Kingston. — Mr. and Mrs. Charles T. Page and children are home after spending a week with friends in Mt. Vernon. — The wife of Pastor Travis of the Methodist Episcopal church is confined to her home by a severe cold. — Lester Haynes of this village and Miss Tefe Benjamin of Hunter have just been married and have taken up

POTATOES AND BEANS.
A further incentive to the planting
of more gardens and their intensive
cultivation is found in a recent bulletin
of the United States Department of
Agriculture, wherein it is estimated
that there will be a reduction of five
per cent in the acreage of potatoes
and of 20 per cent in the acreage of
beans planted this season, as compared
with the spring of 1919. These
reports come through the field agents of
the bureau, who on May 1 required
of growers in important producing
states information concerning their in-
tended plantings.

High prices for potato seed and the
labor shortage are the principal rea-
sons given for the reduction in potato
planting. The unsatisfactory market
for beans is given as the reason for the
smaller acreage planned for that crop.
The reports show that for the states
covered the potato acreage will be 35
per cent as large as last year, while
the bean acreage will be 71 per cent
of last year.

The potato crop last year was 355,
000,000 bushels—54,000,000 bushels
less than in 1918, and 83,000,000 less
than in 1917, but 70,000,000 more
than in 1916. It was about three per
cent smaller than the average crop of
the preceding ten years, and six per
cent smaller than the average crop of
the preceding five years. The plant-
ings last year were large enough to
have produced with an average yield
a crop of 390,000,000 bushels.

The bean crop of the United States
last year was about 12,000,000 bushels.
While only about three-fifths as large
as the crops grown on the exception-
ally large acreages of 1918 and 1917,
the 1919 crop was almost equal to the
crops of 1914 to 1916, which averaged
between 12 and 13 million bushels.
The plantings now indicated—about
800,000 acres—with a yield equal to
the average of the last five years,
would produce a crop of 8,250,000
bushels.

With these facts in mind, it is no
more than his plain duty for every
man who can do so to get a garden
and to cultivate it for all that it is
worth.

COMMENTS OF DAILY PRESS

Government Operation of Railways.

Government operation was discred-
ited because it was pedantic and un-
businesslike. Its insistence on operat-
ing deficits was the chief cause of the
present chaos. Mr. Hines may try to
find other causes. But the public will
remain skeptical. It knows why gov-
ernment operation failed. So do those
who operated the railroads on the gov-
ernment's behalf. A year ago they
were arguing for a five-year extension
of their regime. But last January they
were glad to be relieved of a responsi-
bility which they had discharged with
general and eminent dissatisfaction.
—[New York Tribune.]

Governor Cox's Deadly Sin.

Begging Mr. Bryan's pardon, he
cannot be sincere when, after speak-
ing of Governor Cox of Ohio as a dis-
grace to his state and the leader of
the lawless, he adds, "There is no like-
lihood of his nomination." That is not
the way of the gentleman from Ne-
braska in the habit of speaking of
Democrats who have no chance.

The Democrats who escape the poi-
soned darts of this grim archer are
the men to be commiserated. They
never have a Chairman's chance. If
they could carry their own states, as
Governor Cox and Governor Edwards
have done, and thus give their party
at large some hope of success, they
too would face the Bryan firing squad.
—[New York World.]

Style at Any Cost.

If wooden shoes should become pop-
ular in this country to help reduce
high prices, there will be some snob-
bish wasters who'll spoil it all by in-
sisting that the shoes must be made
of polished mahogany. — [Toledo
Blade.]

Boston's Idea of It.

A man was deported at New York
the other day because the language he
spoke was unknown to any one there.
The suspicion has since arisen that
he was talking English. — [Boston
Transcript.]

Evil Association.

"I reckon by this time the baby can
say all sorts of things," chirped the
visiting cousin.
"Yes," replied Mrs. Gap Johnson of
Rumple Ridge, Ark. "I try the best I
can to keep him from it, but, natch-
erly, he's around his Paw a good deal."
— [Kansas City Star.]

The Navy's Dirty Linen.

Time to take in the wash! That navy
linen has flopped in the front yard
long enough. — [Washington Post.]

Organize Sunday School Class.

Miss Charlotte Curtis' class of the
Universalist Sunday school, Ford ave-
nue, organized their class yesterday.
The following members were elected
for the year:
President—Turiene Roper.
Vice President—Wilma Roper.
Secretary—Nancy Coleman.
Treasurer—Martha Hotelling.
"True Blue" was selected as the
class name.

A VALUABLE COW.

Star of White City Herd Brings Owner
\$5,000.

We think that the honor of having
had the most valuable cow in this sec-
tion belongs to the White City Stock
farm of Sidney, E. A. Vandervort,
proprietor. This cow, which was
born and bred at the White City farm
was consigned last week by Mr. Van-
dervort to the First National Bank-
wood sale at Philadelphia, Pa., and
was sold to Rancocas farms, Jobs-
town, N. J., for \$5,300, also winning
first prize over all, netting Mr. Van-
dervort \$500 more, making a total of
\$5,800 he received for the animal.
There were 129 head of stock in the
sale which were consigned from all
over the United States and the result
is very gratifying to Mr. Vandervort,
and is a very fine testimonial of his
ability as a high grade stock breeder.
This will give much added fame to
the already well known White City
farm stock. The name of this valu-
able cow is Natalene Pontiac. A son
of this cow, ten months old and weigh-
ing 900 pounds, sold to an Oxford
corporation for \$2,000. He has a two-
year-old daughter of the cow now on
the farm. The cow he sold is Dan of
the world's record holder under five
years of age holding a record for milk
for seven days of \$19.56 pounds and
a butter record for seven days of
24.36. The record for 30 days was 3-
\$19.96 pounds of milk; butter, 134.79
pounds. Mr. Vandervort considers the
Brentwood sale as one of the greatest
shows that he had ever attended. The
judge of stock was Judge Moscrop of
Minnesota, one of the best known
judges of Holstein stock in the coun-
try. Mr. Vandervort is certainly to be
congratulated upon the fine price he
received for his cow and the honors
attached. — [Sidney Enterprise.]

MEETS AT OTEGO THURSDAY.

Oneonta Group of Woman's Foreign
Missionary Society to Gather.

The Oneonta group of the Woman's
Foreign Missionary society will hold
an all-day meeting in the Otego Meth-
odist church on Thursday. The pro-
gram follows:

10:30 a. m. Opening service.

Reports—Helpful Ideas from Work-
able Plans.

Intercession. Mrs. Childs.

Tithing and the Storehouse. Miss
Murdoch.

Noontide Prayer.

Luncheon.

Afternoon Opening Service. Rev. C.
C. Volk.

Items of up-to-date missionary news.
Anyone present.

Special work.

Mystery box contest.

Address. Mrs. Stannard, conference
secretary.

District work. Mrs. Hadsell.

A large number of women from
the First Methodist church of this
city are planning to attend the meet-
ing Thursday, and will take either
the Sidney bus, which leaves Oneonta
at 8:45, old time, or the D. & H. train
leaving at 8:20, railroad time. There
will be two sessions at the meeting,
the first one opening at 10:30 a. m.,
and a very profitable and interesting
event is anticipated.

Scheney Postmaster Examination.

The United States Civil Service com-
mission announces an examination to
be held at Oneonta on June 16, 1920,
for the position of postmaster at
Scheney. This office has an annual
compensation of \$1,300.
To be eligible for this examination
an applicant must be a citizen of the
United States, must actually reside
within the delivery of the office and
have so resided at the time the present
vacancy occurred.

Applicants must have reached their
twenty-first but not their sixty-fifth
birthday on the date of the examina-
tion.

Full information concerning the re-
quirements of the examination may
be secured from the postmaster at the
place of vacancy or from the Civil
Service commission, Washington, D. C.
Applications should be properly
executed and filed with the commis-
sion at Washington, D. C., in time to
arrange for the examination of the ap-
plicant.

Home Bureau Meets at Middlefield.

Middlefield, May 17. — The Home
Bureau club will hold an all-day meet-
ing at its rooms Wednesday, May 26,
commencing at 10 o'clock. Miss Mc-
Martin, the county demonstrator, will
be present to demonstrate the mak-
ing of a one-piece dress. Each wo-
man is requested to bring her own
sewing equipment, material and pat-
terns, also sandwiches and any other
dish. — Mr. and Mrs. William Aldrich
and daughters, of Laurens, spent Sun-
day with Mr. and Mrs. Frank Taber.
— Mr. and Mrs. Myron Edmunds of
Cooperstown were Sunday guests of
Mr. and Mrs. J. W. Clifton.

Drunk Escapes Jail Sentence.

William Brewer, who was arrested
in an intoxicated condition while
walking along the D. & H. tracks near
the station Saturday night, pleaded
guilty when arraigned before City
Judge Huntington yesterday morning.
He was sentenced to pay a \$5 fine and
spend 30 days in the county jail, but
the jail sentence was suspended pro-
vided that Brewer pursues a more
steady course in the future. He paid
the fine.

Wanted—Names and addresses of

WEST END REPORT

Plains Home Economics Club Meets
This Afternoon—Local News Notes.

The Plains Home Economics club
will meet at the Plains Methodist
church this Tuesday afternoon at 2
o'clock for the demonstration of sal-
ads. Each lady is asked to bring
plate and fork. Miss VanCleave will
give the demonstrations. A large at-
tendance is desired.

Real Estate Changes.

T. C. Baugh of 4 Bronk street, has
purchased of W. D. Butler his desir-
able bungalow at 378 Chestnut street.
Possession given at once.

H. E. Church of 18 West End ave-
nue has moved to Spruce street, into
a residence which he has just complet-
ed. Maurice Barnett, who purchased
Mr. Church's house, is moving in.

Hand Much Improved.

Edward Tripp of 2 Morgan avenue,
who has been suffering from blood
poisoning in the hand for some time,
is so far improved as to resume his
work on the D. & H.

Personal Mention.

Mr. and Mrs. L. C. Millard of 330
Chestnut street, in company with Mr.
and Mrs. Charles Townsend, spent the
week-end with Mr. and Mrs. Corey
Burst, of Cobleskill.

Mrs. Daniel Hungerford of 292
Chestnut street has returned home,
after spending three weeks with rela-
tives and friends at Attamont and Del-
mar.

Mrs. Joseph Davis and sons, Ken-
neth and Percy of Otego, were Sunday
guests at D. E. Robinson's of the
Junction.

Jasper and LaVern Trinkino, ac-
companied by their friend, William
Kling, all students of Hartwick Sem-
inary, spent the week-end with Mr.
and Mrs. D. A. Trinkino, of the Junc-
tion.

Miss Clara Youngman of Emmons
was a Sunday guest of Mrs. C. L. Grif-
fin, 2 Harrison avenue.

Jesse Millard of Binghamton was a
Sunday guest of his parents, Mr. and
Mrs. L. C. Millard, 330 Chestnut
street.

Enlist in Navy.

Stephen E. Yates of 70 Center street
has enlisted in the navy at the local
recruiting station for a period of three
years as apprentice seaman for ma-
chineist's mate, aviation. He leaves
Thursday for Syracuse, where he will
try final examinations, after which he
will be sent to the Navy Aviation
school in Chicago.

A. W. McCreery, ship fitter, first
class, arrived in this city Monday eve-
ning with a navy recruiting truck,
which will tour Otsego county for re-
cruits, visiting the following towns:
Oneonta, Sidney, Norwich, New Ber-
lin, Richfield Springs and Cooper-
stown. James Roberson, local recruit-
ing officer, will accompany it on the
three days' tour.

The truck will remain in this city
and vicinity until after the fair, where
exhibits will be shown and recruits re-
ceived. Young men who desire infor-
mation regarding the navy and its op-
portunities may secure the same at
the local recruiting station, post office
building.

Chamber of Commerce Election.

Primary ballots were sent out yester-
day to all members of the Cham-
ber of Commerce, along with a
stamped addressed envelope and the
request that the members designate
on the ballot their choice for pres-
ident of the chamber and for five
directors to serve for a period of
three years. On the reverse of the bal-
lots is printed the entire membership
list for convenience in making choice
of candidates.

These primary ballots, properly
filled out, will be opened and counted
immediately after 7 p. m. on Friday,
May 28, and any person receiving five
or more votes on the primary ballots
will be eligible to election as director.

The Joyce stores, Oneonta, N. Y.,
have received their spring stock of
strollers and baby carriages, on which
they can save you 20 per cent.
advt m-w-t

No stock of Vitale Firestone and
other popular bicycle tires will be
sold this week at Miller's, 12 Central
avenue.
advt 5t

"THE MAKINS" OF AMERICANS

It is fetching children like these
that keep the world turning
round and the International In-
stitutes of the Y. W. C. A. at work.
They're "the Makins," the raw ma-
terial of those persons we cherish
later, good Americans.

The Y. W. C. A. believes "in catch-
ing them young" and so it cultivates
children like these born of foreign
parents in America, and makes
friends with them. Often in large
cities giving the children room
where they can play is the happiest

thing they can do. The language and
customs of their adopted country
soon come, second nature to these
budding Americans.

A National Convention of the
Young Women's Christian Associa-
tions of the United States will be
held in Cleveland the third week of
April. Delegates from the thousand
Association centers in the United
States will meet for the first time in
five years. War and the pressure of
war work precluded the last meeting
in 1918.

WALTON MAN KILLED BY BULL

Lewis Allen Found Dead in Barn,
Where He Had Gone to Feed
Newly-Purchased Animal.

Lewis Allen of Walton was killed
by a bull Saturday afternoon. Mr.
Allen has a herd of twenty-two thor-
oughbred Holsteins and had just
brought home this fine full blooded
registered bull to breed with. He went
to the barn to feed the animal, which
had been represented to him as be-
ing kind and gentle as a kitten, and
was found later pinned to the side of
the barn crushed to death. The de-
ceased is thirty-seven years old and
the son-in-law of Edward Finch, pro-
prietor of the Unadilla pool room.
He is survived by a widow and four
children, Thelma, Wanda, Thomas
and Mainard also his mother, Mrs.
Mary Allen of Unadilla. The funeral
will be held from the home Wednes-
day at 1 p. m., Rev. Charles Hubble
officiating.

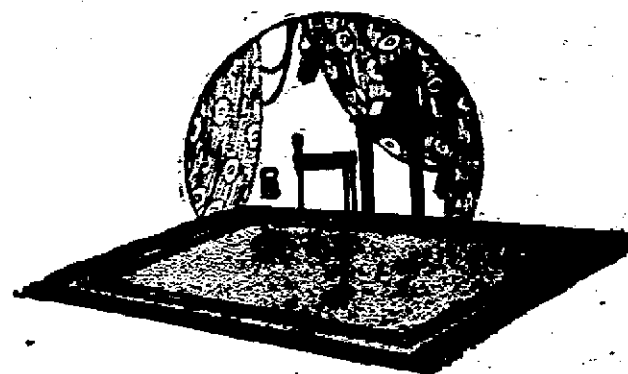

Ackawanna Class Elects Officers.

At a business meeting of the Acka-
wanna class of the United Presbyter-
ian church held Friday evening, May
14, the following officers were elected:
President—Mary A. Smith.
First Vice President—Ethel Downie.
Second Vice President—Margaret
Doig.
Secretary—Alice Seward.
Treasurer—Lillian Thompson.

A Real Remedy For Falling Hair

Here's good news for men and women
whose hair is falling out, who are grow-
ing bald, and have scalps covered with dandruff that itch like mad.
Geo. S. Slade or any good druggist can
now supply you with the scientific Parisian
sage (liquid form), which is guaranteed to
quickly, surely and safely abolish every
sign of dandruff, stop itching scalp and
falling hair and promote a new growth, or
money refunded.
Thousands can testify to the excellent
results from its use: some who feared
baldness, now glory in their abun-
dant hair, while others who suffered for
years with dandruff and itching head got
a clean, cool scalp after just a few days
use of this simple home treatment.
No matter whether bothered with falling
hair, gray hair, itchy scalp, dandruff
or itching scalp, try Parisian sage—
you will not be disappointed. It's a scien-
tific preparation that supplies all hair
needs.

A Splendid Showing of RUGS

Housecleaning, naturally brings to mind the neces-
sity of making some changes in the floor covering of
your home.

Special Steels add Life to the MAXWELL

These steels are the
product of the highly de-
veloped Maxwell labora-
tories, where steels have
been studied, analyzed
and tested for years.

They are made to
Maxwell's own formulae
and enable the Maxwell
to stand punishment that
few cars can meet suc-
cessfully.

They lessen the task of
the engine and make it
more responsive, quicker

in action and a delight
to handle.

These are some of the
virtues which have won
friends for the Maxwell
in ever increasing num-
bers and give it a longer
life than many cars of
higher price.

Today there are ap-
proximately 400,000
Maxwell's on the world's
highways. The year
1920 will add 100,000
more.

JACOB MENTION.

A. J. Brown has sold his house and lot at 48 Hudson street to Willis J. Burdhan, who has taken possession. Mr. Brown will move to Lyons.

The Oneonta Public Library was in receipt yesterday of a draft for \$100, being the sum appropriated by the state for the purchase of books, which sum must be duplicated by the library authorities.

Erza Alger has purchased through Mrs. Marcia M. Multer, agent for the Fonda estate, a building lot on the north side of River street, between Gilbert and Duane streets and adjoining the one he purchased some time since.

No further word was received yesterday of the Studebaker car belonging to Grover C. Chapin of West Oneonta, which was stolen from in front of the Oneonta theatre last Friday night, but the police department is continuing its efforts to locate it.

Meetings Today.

The Home Economics club will meet at the Woman's club rooms today at 2:30. Miss McMartin, county agent, will give a demonstration on Home Tests for Textiles and the Removal of Stains or Dry Cleaning. All members who have not paid their dues are asked to do so at this meeting. All ladies are invited.

Stated meeting of Martha chapter, No. 116 O. E. S., at 7:30 this evening. Special Memorial services will be given.

The Woman's Missionary society of the Main Street Baptist church will meet with Mrs. W. H. Fay, 9 Taft avenue, at 3 o'clock this afternoon.

Meeting of Scout troop, No. 4, at Y. M. C. A. tonight at 7:30.

The regular monthly meeting of the Young Woman's Foreign Missionary society of the First Methodist church will be held this evening at 7:30, at the home of Mrs. S. Larabee, No. 369 Chestnut street. Please stop at stop 3 on trolley.

The Daughters of Isabella at 8 p. m. sharp. All members are urged to be present.

Regular meeting of Centennial lodge, No. 447, I. O. O. F., will be held this evening in the temple. All Odd Fellows welcomed.

Ladies' Aid society of the First Baptist church will meet in the church parlors at 2:45 this afternoon.

Meeting Postponed.

The meeting of the West Oneonta Home Economics club is postponed until May 23.

Breaks Favorite Wrist Cranking Ford.

Harold H. Mitchell, of the Wilber National Arms force, has come out in favor of self-starters on all automobiles. In fact, he would like to see a law passed prohibiting the manufacture or sale of cars that have to be wound, said stand having been taken by him with his right arm in a painful condition, held in a sling. Mitchell was indulging in the unpopular pastime of cranking his Ford last Friday night, when the engine showed its sulkiness and uncrankiness, delivering a back kick that broke Mitchell's favorite right wrist.

The fracture was reduced by Dr. J. C. Smith and "Mitch" is again about, although it will be several days before he will be able to resume his work. He is the son of Mr. and Mrs. H. H. Mitchell of 70 East street.

Queens and a Kingdom

Will be given at the First Methodist church on Wednesday evening, May 19, at 8 o'clock. The proceeds will be devoted to the support of homes and schools maintained by the Woman's Home Missionary society of the church.

A DISTINCT VALUE.

Free Lecture Will Show the Mission of Christian Science.

There will be a free lecture in Chapin Memorial Universalist church, this evening at 8 o'clock (new time), on the subject of Christian Science. The lecture will be by John C. Latrop, C. S. B., of Brookline, Mass., member of the Board of Lectureship of the Mother church, the First Church of Christ Scientist, in Boston, Mass. The purpose of the address will be to show that Christian Science possesses a distinct value; that it has a distinct mission to perform, and that in its valuable mission to mankind Christian Science is natural, simple and practical. A brief survey of religious history and development will show the natural order of the coming of Christian Science. advt 1t

Real Estate Bargain.

REAL BARRY DID NOT APPEAR

ATTEMPT TO FOIST FRAUD ON MANAGER ROSE OF STRAND THEATRE.

Booked Wesley Barry in Good Faith, But When Impersonator Arrives Engagement Is Cancelled and Public Informed — Relatives Disappointed.

Manager Rose of the Strand theatre, who had advertised Wesley Barry, the star of "Daddy Long Legs," for two days, had the unfortunate experience of narrowly escaping a gross imposition, but thanks to his keen perception, both he and the public were not victimized by a gross attempt to impose a fraud upon him, which, however, has worked in other places. He booked the movie star in good faith, the correspondence appearing correct, but when the fellow and his manager stepped from the train he was at once impressed that the young fellow was not Barry. Alfred Scott, who posed as his manager, introduced the chap as Barry. This is not Barry of "Daddy Long Legs," said Mr. Rose, but both were insistent and they were escorted to the Oneonta hotel, where the real Barry's grandmother, Mrs. Laura Barry of Brooklyn, who is visiting Mrs. Charles Morey of Milford Center, an aunt of the artist, was waiting with Mrs. Morey.

When the grandmother of Barry took the chap by the shoulders and looked him squarely in the face, saying, "You are not Wesley Barry of 'Daddy Long Legs,' I know him too well to permit of such an imposition," the fellow broke down and admitted that he was not, and the supposed manager, Alfred Scott, admitted that it was his own son, Sidney Scott.

Manager Rose at once called off the engagement and posted a notice to the effect that the real Barry had failed to appear and regretting the disappointment of the public. Scott, the promoter of the project, consented to sign a written statement, in which he exonerated the theatre management and agreed to reimburse it for the expense and damage sustained.

It is a source of congratulation that the attempt at fraud was detected and that the public here was protected from the imposition. Oneonta may be provincial, but its citizens are not so easy as many might surmise. Mr. Rose wishes The Star to state that he regrets the incident, but wishes it understood that he endeavors to keep faith with the public, and that no other course was open but to expose the fraud.

"CHIN CHIN" TONIGHT.

Charles Dillingham's Comedy Success at the Oneonta Theatre.

It is with a great deal of pleasure, in fact pride, that the Oneonta theatre management announces the coming of Charles Dillingham's greatest musical comedy success "Chin Chin" here tonight only.

This play appeared first at the Globe theatre in New York for two solid years.

In the leading roles will be seen Walter Willis and Roy Binder, who came to us with the stamp of approval won in such productions as "The Wizard of Oz," "The Red Mill," etc.

The company is conceded to be the largest musical comedy aggregation on the road today, comprising 65 people, mostly girls, and Tom Brown's famous Clown Saxophone band. Charles Dillingham's name is associated with the biggest and best theatrical enterprises, such as the Hippodrome and Globe theatre in New York.

"Chin Chin" is a fantastic production, rich in Oriental and Old English costuming, in seven sets, including the most startling surprises; ingenious trickery and grotesque dancing, in plenty, affording an entertainment that is clean and wholesome, giving hilarious amusement for both young and old, which qualities are the making of and particular success of the theatrical magnate, Charles Dillingham. Absolute capacity houses have greeted "Chin Chin" everywhere.

Spencer Urges Co-Operation.

E. W. Spencer, president of the Merchants' association of Oneonta, issues the following statement concerning the Salvation Army and urges co-operation of members:

"Every merchant knows the tireless efforts for good and the splendid service being performed by the Salvation Army. I trust during their campaign, members of the Merchants' association, as well as others, will display the Army's placard in their places of business, and give them at least their moral support, your financial support will be appreciated and be put to a good use."

Living in Tents.

It's all right in the southland, but last winter proved that it can't be done in Oneonta. There are people here who can't get houses to live in. Over 2,000 little people have been helping me to get homes for them, by safely placing small monthly amounts with me to roll up to several million dollars, for loans to buy or build, but there is need for more. There are some 2,000 other little fellows, getting good wages, many of them young men and girls without the care of a family, who could help by safely placing the measly amount of \$2.50 each week with me, and I would thus have the extra amount of \$20,000.00 each month with which to do the trick. I also would roll these little, small amounts up to \$400,000 for them, at six per cent compound interest, in first mortgages on improved real estate, the safest security known. I have three ways for safely placing small or large amounts, and big as well as little fellows ought to help me, while at the same time helping themselves. I am the safe and sane Oneonta Building and Loan association. advt 1t

For Sale—To settle an estate, a house and lot on Otsego street. Street paved and a fine location. Inquire Sheldon H. Close, Municipal building. Phone 27-W. advt 1t

HIGH PRICE FOR STREET OIL.

Petroleum May Be Withdrawn Before May 25 If Taxpayers So Desire.

At the regular meeting of the Board of Public Works, held last evening in the Municipal building, the question of oiling city streets was discussed at length. City Engineer Frank Gurney reported that street oil this year costs 11 cents a gallon, while last season the price was 6 1/2 cents. It was suggested that some property owners might object to paying the increased price, and it was therefore decided to give taxpayers a chance to withdraw petitions for oiling that have been presented, if they so desire. May 25 was set as the last date when petitions may be withdrawn, and application should be made at the city clerk's office before then if property owners do not care to stand the expense of the oiling.

At last night's meeting, several petitions for the construction of sidewalks, sewers, and other public improvements, were presented, but no action was taken. Other routine matters were discussed.

PREPARING FOR DECORATION.

Prof. Fittelle Delivers Address—Rev. P. M. Luther Preaches Sunday.

The committee having in charge the Decoration day program in the city of Oneonta announces that Prof. A. E. Fittelle of the State Normal faculty has accepted the invitation to deliver the address, which will be given at Municipal hall on Monday, May 31, immediately following the decoration of the monument and other exercises in Riverside cemetery. All who have had the pleasure on other occasions of listening to Prof. Fittelle will be pleased to know that he has consented to deliver the address—a pleasure which by the way every citizen will share.

The sermon to the veterans will be preached on Sunday evening, May 30th, at the Lutheran church. Rev. P. M. Luther will deliver the sermon and the other pastors of the city will unite in the union service.

The complete programs for the Sunday and Monday services will appear in The Star next week.

BUYS OUT OF TOWN STOCKS.

Breese Make Big Purchases at Waterville and Sidney.

F. H. Breese & Sons, of the Oneonta Department store have within the past few days made important purchases, embracing the entire stock of two out-of-town stores, which will at once be brought to this city and probably be placed on sale. One of these stocks is that of E. B. Jones of Waterville, which embraces a large assortment of Women's and Children's shoes, the other is the dry goods stock of D. Melnick, a well-known merchant of Sidney. Both these stocks have been bought at reasonable figures, and patrons will share in the bargains they have secured.

Officer O'Dell Resumes Duties.

Howard L. O'Dell, who has been absent from work for several weeks on account of sickness and death in his family, resumed his duties yesterday as motorcycle traffic officer. Mrs. O'Dell and daughter still are seriously ill with scarlet fever, but are believed to be out of danger.

Births.

Born, May 17th, to Mr. and Mrs. James Peet jr., 61 Elm street, a son, Charles Xaper Peet.

Born, to Mr. and Mrs. James H. White of Binghamton, at the home of her sister, Mrs. Frank Dunning, at Milford, May 14, a 7 1/4 pound son, Donald James White.

HERE ALL NEXT WEEK.

Many Big Features in Firemen and Band Carnival.

Under the auspices of the Firemen and City Band, Oneonta is to see a real outdoor carnival all next week, beginning Monday. The Williams Standard shows is the name of the travelling organization and Neahwa park will be the scene of the festivities. The Williams Standard shows are exhibiting at Buffalo this week, and from reports is about the biggest outfit that has ever been seen in Buffalo. A special train will bring the carnival from Buffalo, and it is said that twenty cars are necessary for the transportation of the various shows.

One of the big features of the Williams Standard shows is the mammoth menagerie of wild beasts. Other attractions are the Ten-in-One shows, two headed giant, a beautiful mermaid, fat women, athletic show, Oldland minstrels, Arabian nights, Norma, strongest girl alive, dog and pony show, merry-go-round, whip, Ferris wheel and slides, and many other novel features. The shows are all new and up to the minute, and above all, clean and wholesome. Admission to the grounds will be free.

Machinist Smashes Finger.

While at his work in the D. & H. shops yesterday afternoon, Henry B. Watson, a machinist, had his finger crushed. He was removed to the Fox Memorial hospital in the ambulance and after the injured member had been dressed by surgeons, he went to his home at 34 London avenue, where at last reports the finger was still causing him some pain but was healing.

For Sale.

Building known as Coy Livery barn, on Dietz street, will be sold at a bargain to a responsible buyer. F. L. Dibble, Wall street. advt 1t

WHY LET THE CHILDREN SUFFER?

Many parents who have their eyes examined regularly and keep their eyesight keen by wearing carefully made and properly fitted glasses, neglect to have their children's eyes protected as they protect their own.

Regular examinations of children's eyes—especially when the children are in school—is of the utmost importance. Little eye defects become big defects when neglected.

Let us examine your youngster's eyes.

"I am for The Salvation Army!"

Vice-President Marshall did not qualify that statement when he uttered it publicly a few weeks ago.

Why? Because, as he says:

"I know of no organization which will stand back of men and human kind better than The Salvation Army!"

DEATHS.

Nelson Barnside.

Nelson Barnside, a descendant of one of the oldest families in the Schoharie valley, died at 3:15 o'clock Monday morning at the Fox Memorial hospital where he had been a patient for two months, following a fractured hip, which he sustained in March of the present year. His time his condition seemed to improve, but of late he had been unable to walk, and his death was expected.

Mr. Barnside was born Jan. 6, 1823, and was a son of James C. and Anne (Hart) Barnside of Marysville, where and in the adjacent town of Milford nearly all his life was spent. About one year ago, however, he came to Oneonta, and his home at the time of the accident was with a niece, Mrs. Josephine Barker of 15 Grove street. By occupation, he was a farmer.

He is survived by four sons: Almeron of Schenectady, Waldron who resides in Pennsylvania, James of Colliersville and Henry of Lodi, N. J.; also by two daughters, Mrs. Linda Barnes of Cooperstown Junction and Mrs. Nellie Waterman of this city, and by seven grandchildren.

The funeral services will be held at the Methodist Episcopal church at Cooperstown Junction at 1:30 o'clock on Wednesday. Rev. Charles Kramer of the Universalist church at Cooperstown will officiate and burial will be in the Junction cemetery.

Mr. Barnside was a well-known and respected man and had many friends among the older residents of this vicinity. He was a regular attendant of the Universalist church at Junction.

Mrs. Michael Hanlon.

Yesterday afternoon, at 1 o'clock, Mrs. Michael Hanlon died at her home, 8 Franklin street, of multiple neuritis and complications. Her health had been poor since the early part of February, and had grown rapidly worse during the past month.

The deceased, who was Miss Fannie Fern, was born in Middlefield, Otsego county, in 1860, the daughter of James and Mary Fern, both deceased. She was married in 1882 at Cooperstown to Michael Hanlon of Roseboom, Otsego county. Mrs. Hanlon is survived by her husband, two daughters, Mrs. John B. Clark and Mrs. Franklin S. Hutton, both residing at 8 Franklin street, one adopted son, Theodore Hanlon of New York; a brother, Samuel Fern of Oneonta, a grand daughter, Louise Frances Clark, daughter of Mrs. J. B. Clark; and a nephew, Edward Fern of Oneonta.

After marriage, Mr. and Mrs. Hanlon resided at Cooperstown for 29 years and at Cobleskill for six years, coming to Oneonta one year ago. Mr. Hanlon is proprietor of the Cloverleaf lunch room at 28 Dietz street. Mrs. Hanlon was a member of the Roman Catholic church and of the Ladies Catholic Benevolence association.

The funeral will be held at the Church of Our Lady of the Lake, Cooperstown, Thursday, at 11 a. m. next time. Father Patrick H. Crowley will officiate and a solemn requiem mass will be offered for the repose of her soul.

The charity of Mrs. Hanlon was well known to those who were the victims of misfortune. She was a devoted mother and was loved, admired and respected among a wide circle of friends, who will deeply regret her death.

Smith Lasher.

Smith Lasher, a well known resident of the town of New Lisbon, died Monday evening at about 6 o'clock after ten days' critical illness. Further particulars and date of funeral will be given in a later issue of The Star.

Card of Thanks.

We wish to express our appreciation to the friends, neighbors and members of the D. & H. coach department, who by their many acts of kindness have helped to lighten our grief over the loss of our loved one, also for the many beautiful flowers sent for the man, C. S. McNaughten.

Attorney Harris L. Cooke of Cooperstown was in the city yesterday on his way to Emma on legal errands.

Mrs. I. E. Miller of 46 Cedar street left Monday for Elk Creek to attend the funeral of Mrs. Alma Chamberlain.

Mr. and Mrs. A. A. Johnson of 45 Main street are spending two weeks with their grandson, L. W. Johnson in Schenectady.

Mrs. C. E. Baird and daughter, Clara, of Stamford, has been visiting at the home of Mrs. Fannie Van Hoesen on Grove street.

Mrs. Elizabeth Steidle of 39 Grove street left yesterday for Rouses Point to visit at the home of her daughter, Mrs. R. E. May, for two months.

Miss Beulah Barrett and Mrs. Lulu Walther of 191 Center street left yesterday for Troy, where Miss Barrett will undergo an operation on her eye.

Mrs. Loren Hulbert departed yesterday for a visit with her sister and other friends in Shavertown. Before returning she will visit at other places.

Mrs. Amanda Darling of Windsor arrived in Oneonta yesterday and will be the guest for a few weeks of her niece, Mrs. Ronahe Griffin, 426 Main street.

Mr. and Mrs. Clayton Brezee and son, Carl, and Mrs. Charles Norton left Monday to attend the funeral of the former's brother-in-law, George Turner, in Troy.

Miss Mary Sisson arrived home last evening from Middletown, Conn., where she had been in attendance at a week-end prom given by Chi Psi at Wesleyan university.

John A. Napper of Camden, N. J., arrived in Oneonta yesterday and is the guest for some time of his daughter, Mrs. H. R. Fowler, and sons, Charles and John, of this city.

Mrs. Darwin Root of Whiting, Indiana, who had been attending the marriage of S. C. Harris and Miss Adeline Root at Oneonta, left Monday for Sidney to visit her parents during the summer.

Mrs. Katharine Rosalie and Mrs. Judson Ames of Foxcroft, Me., who had been visiting their brother, George W. Melius of 89 West street, for the past two weeks, left yesterday for Albany, where they will stop for a few days before returning home.

Mr. and Mrs. Arthur L. Quackenbush of 23 Brewer street enjoyed a week-end motor trip to Tuca, where they were Sunday guests of Mrs. Quackenbush's mother. They were accompanied on the trip by Secretary and Mrs. A. C. Lange who spent Sunday at Mrs. Lange's parental home in Whitesboro.

Many Friends and Relatives Present at Impressive Service Yesterday.

The funeral of the late Mrs. Belle Palmer, who died last Thursday evening, was held at 2 p. m. Monday afternoon at the family residence, 56 Spruce street. There was a large attendance, not only of relatives and neighbors but of many from other towns assembled to pay a last tribute to one whom they held in highest regard.

There was a profusion of floral tributes, in the number being included pieces from the teachers of the Oneonta Public schools, of the Chestnut street school, of the Eight grade at Chestnut street, the Fifth at River street, the Wanderers basketball team, the Portlandville school, the Eastern Star of Oneonta, the Senior and Junior Philathetas the Junior Baracas and Primary department of the First Baptist church and Sunday school the Baptist church at Union and the Bible Study class, group 4. The members of the Philathetas class of the First Baptist church attended in a body, and there was also present a large delegation of the classmates in the High school of Arthur Palmer, younger son of the deceased.

The service was conducted by her pastor, Rev. Dr. Farley of the First Baptist church, who took for his text the words found in the Proverbs of Solomon "Let not your own works praise her in the gates." The address paid affecting and fully justified tribute to one who was alike a true woman, a wonderful mother and a devoted Christian. Following prayer, the body was taken to Westville for interment beside her late husband. Members of the immediate family acted as bearers and the service at the grave was conducted by Dr. Farley, who accompanied the family to Westville.

Among those present at the funeral were the following relatives and friends from out of the city:

Mr. and Mrs. Otto Wedawerth, Union; Miss Minnie Van Nest, Englehampton; Mr. and Mrs. George M. Augur, Hartwick; Miss Ida Sherman, Albany; Mrs. Elizabeth Wilbur and family, Mr. and Mrs. Dean Beckley, and Mrs. John Clark, Phoenix Mills; Mr. and Mrs. Alden Ottaway, Mr. and Mrs. Willis Belknap, Cooperstown; S. Howard Sherman, Albion; Mrs. Charles Martindale, Mrs. George Culter, Milford; Mrs. Ralph Brown, Mrs. Fayette DeLong, Mrs. F. L. Crawford, Portlandville; Mr. and Mrs. D. L. Palmer, V. N. Sherman and family, Otsego; Mr. and Mrs. Edward Reid, Treadwell; Mr. and Mr. Albert Youngs and daughter, Youngs, George Manwarren, Windsor.

Wolcott's Auto Exchange.

Several late model Ford touring cars, all in excellent condition; also one 1917 Ford roadster with starter, one Ford light truck with top, Chevrolet touring with starter and many other good bargains. Wolcott's Auto exchange, 350 Main street. Phone 1172-W. advt 24.

Surprised Miss Parish.

On Friday evening Miss Julia Parish of Upper East street was greatly surprised by over 50 friends, most of whom were Grangers, who made her a surprise visit, the occasion being her 15th birthday. The evening was passed in music and games and dancing, after which refreshments were served. The guests before departing presented her with several pretty gifts and best wishes for many happy returns of her birthday.

Farwell Surprise Party.

About 25 friends of Mr. and Mrs. L. C. Church gave them a farewell surprise party Saturday evening at their home, 15 Morgan avenue. The evening was pleasantly passed with cards and music. Delicious refreshments were served and at a late hour the guests departed, extending best wishes to Mr. and Mrs. Church for their future home at Pleasantview farm on the West Oneonta road.

The best is sometimes also the most economical. It takes less Otsego to make rich, delicious, satisfying coffee include some in your next order. advt 17.

Lightning Can Strike if Shinn Gets There First

It has been proven for twenty years, by the experience of thousands of protected buildings all over America, during the most severe electrical storms—that Lightning cannot destroy a building protected by Shinn-Flat Lightning Rods.

Shinn-Flat

Lightning Rods Prevent Losses

They are distinctive in design—woven in a flat form—with 36% greater capacity for carrying electricity than old-fashioned rods. All authorities agree that this is the best form of Lightning Rod—the safest and best, also the most attractive and the least conspicuous.

Ask for a copy of the Book on Shinn-Flat, explaining the Cause and Control of Lightning—Free.

The Wonders of America

By T. T. MAXEY

YELLOWSTONE NATIONAL PARK.

YELLOWSTONE, our oldest and largest national park, is considerably larger than the state of Delaware. Its altitude ranges from 6,000 to 11,000 feet above sea level. It contains such a large collection of weird and freak natural phenomena that the visitor gains the impression the Great Creator of all things must have roamed over the world, collecting all the odd things he saw, dumping them here in one great disordered heap.

There are more geysers than in all the rest of the world put together. They range from tiny openings, spouting water but a few feet, at intervals of a few minutes, to the great giant, larger than a well, projecting a column of water 250 to 300 feet high, for a period of several minutes at intervals of several days. There are numerous waterfalls, the great fall of the Yellowstone river in the gorgeously colored, 20-mile-long Grand canyon, being 308 feet high. There are many hot springs and small lakes, also the largest lake—Yellowstone—at its height in North America. There are several paint pots—great cauldrons of blubbery, hissing mud; many steam vents and boiling pools, a natural bridge, a roaring mountain, a mountain of volcanic glass, petrified trees and wedged trees. At Norris basin is said to be the thinnest known portion of the earth's crust. Standing there, the visitor needs no assurance that his satanic majesty resides near by.

Yellowstone, known far and wide for its wild flowers, is also the largest wild game preserve in the world.

Will to Do Is Imperative.
Thoughts of doubt and fear never accomplished anything, and never can. They always lead to failure. Purpose, energy, power to do and all strong thoughts cease when doubt and fear creep in. The will to do springs from the knowledge that we can do—Allen.

Hair "a la Pompadour."
The style of arranging the hair pompadour originated with the French women about the middle of the eighteenth century. This style of hair-dressing is believed to have derived its name from the notorious Mme. De Pompadour.

dier's Questions

MAKE CLAIM ADJUSTMENT EASY

Government Insurance for Men Who
Were in Service Is Fully Explained
—Difficult Subject of Compensation Made Clear.

Washington.—In order to answer the innumerable questions as to insurance, compensation and allotments that come up from time to time, the office of the assistant to the secretary of war, in charge of soldier re-employment and welfare has issued a pamphlet designed to help ex-service men solve their individual problems. It is known as Bulletin No. 6, and may be had from army, navy and marine recruiting offices, employment agencies, welfare organizations, public health officers, local posts of the American Legion, army and navy hospitals and chambers of commerce.

This pamphlet will also be supplied free of charge to anyone who will address the office of the assistant to the secretary of war, Council of National Defense building, Washington, D. C.

All Fully Explained.
In this booklet government insurance for men who were in the service is fully explained—how premiums are to be paid after discharge; how present insurance is converted into the six different forms of permanent policies now provided; how lapsed policies are reinstated.

The more difficult subject of compensation is described. This is a government allowance paid to ex-service men and women for injury or disability in line of duty, and is entirely separate and apart from any benefits of war risk insurance. The ex-soldier is shown how to apply for compensation through the United States public health service or any American Legion post. The difference between compensation for temporary and permanent disability is described at length, and so-called partial permanent disability, as well.

Considerable misunderstanding seems yet to exist among disabled service men on the subject of compensation when vocational training is undertaken. Compensation is not forfeited under vocational training. In no case can a man's money income from the government be diminished, and in some cases he may receive more. Its source may change, but its amount cannot be decreased.

Solution Made Clear.
Allotment problems are fully entered into and their solution made clear. The method of putting in a regular claim for unpaid allotments in the case of discharged men is explained. Allotments are of two kinds—one kind is paid by the bureau of war risk insurance; the other by the director of finance. This is expected to clean up very shortly the claims which ex-service men still have against the government.

In an army of 4,000,000 men there are many questions arising which cannot be answered in general terms. When unusual circumstances surround insurance, compensation or allotments, information may be obtained in specific cases from any chapter of the American Red Cross, or by addressing Lieut. Col. Matthew C. Smith, office of the assistant to the secretary of war, service and information branch, Council of National Defense building, Washington, D. C., who will also supply copies of the pamphlet.

LOOKING THE FAMILY OVER

Woman Writer Made Some Suggestions That Are Worth More Than a Passing Thought.

A suggestion by Celia Caroline Cole in the Delineator, on how to live in accord with others and eliminate the jangles offered the following as one item. In solving the problem she said: "If you'd step out this minute from the habit of looking at your family as the family and take a new look at them as human beings, individuals, struggling, dreaming, falling just as you do—oh, yes, this applies to your father and mother, too; they're not things especially equipped just because they happen to be your father and mother; they're trying even harder than you are to do something and be something—look at them, the whole family, as people you can do things for, but they needn't do anything for you so far as you are concerned (that's their affair), people you can learn from, every one of them, blessed, brave, marching, helping human beings groping into life and trying to find the right road to walk on. And then take a look at yourself and see if you are the kind of person you'd like to have for a best friend, and why not. Take a walk in the country every now and then, where there are hills or moors or wide fields if you can get them, something patient and serene and strong."

Kaiser's Castles Turned Over to People's Uses

Berlin.—All the famous hunting castles of the ex-kaiser are being converted into places of social usefulness. The Lüne chateau, near Hanover, in which the imperial family used to live when Wilhelm visited that city on hunting trips, is to house part of the Kaiser museum's exhibits. Another chateau is now a home for undernourished children, while a third has been turned into an art gallery.

FOND OF ICE CREAM

Tombstone Druggist Fears Juror
Will "Founder Himself."

Peculiar Tastes Developed by Jurors
When Court Gives Bailiff
Carte Blanche.

Tombstone, Ariz.—"I gotta have another of them cornucopias," impatiently remarked an elderly gentleman to the keeper of Tombstone's only soda fountain, located in Tombstone's combination drug store, cabaret, concert hall, news stand and cigar emporium, "if that old fellow don't quit chasing me over here after cornucopias he's got to founder himself," the elderly gentleman went on.

It was the bailiff carrying out the court's instructions with regard to the care of the Bigbee "deportation" jury. "You gentlemen are to see that every one of these jurors is filled," was what Judge Sam Pattee had told the three bailiffs the night he ordered the cowboy jury locked up for the remainder of the historic trial in which it was setting.

Those orders were a signal for every juror to satisfy the least whim he had developed in long, dreary months of riding ranges and facing the wind, sun and sand of the desert.

With one man the chief demand had been for talcum after a shave. Another is forcing the county to furnish him with a luxurious handsoap which contains olive oil, as a relief from the brand purchasable at the crossroads grocery.

But with one juror the demand is for ice cream cones. Who the dissipating member of the jury is no one can tell, but that does not alter the fact that all Tombstone knows his failings for vanilla ice cream.

Just before court convenes in the morning a bailiff makes a hurry call at the soda fountain.

"One of them vanilla cornucopias," he says.

At noon he appears again. And twice in the evening—before and after the movie show—his "ice cream cones for one" and the bailiff disappears behind the swinging doors of the courtroom.

New Chemical Kills Bed Bugs P. D. Q.

P. D. Q. (Peaky Devils Quittus) is the name of a new golden colored chemical discovery by Dr. Price that actually kills the worst infested house of bedbugs, roaches, fleas, ants and their eggs. They don't have time to kick after you go after them with P. D. Q. A 50c package of P. D. Q. makes a quart of strong bug-killer, and goes farther than a barrel of the old fashioned dangerous dope. P. D. Q. coats and kills their eggs and prevents hatching. FREE a patent spout in every box to enable you to get them in the hard-to-get-at places, and saves juice. P. D. Q. for family use 50c. Special Hospital and Hotel size \$2.50 makes 5 gallons, contains 3 spoons—your druggist can supply you, or sent prepaid to your address either size on receipt of price by the Owl Chemical Co., Terre Haute, Ind. P. D. Q. is never peddled.

FARMERS' WIVES AT SCHOOL

Study Dairying and Other Subjects
Pertaining to Farm.

Fifty farmers and their wives from western Benton county, Ore., attended a three days' farmers and homemakers' short course in Alsea. The sessions were held in the high school and the high school students were also in attendance. The subjects studied were dairying, farm crops, rodent control, stock judging and homemaking. A community dinner was served each day at noon. The school was arranged by George W. Kable, county agent, through a co-operative agreement between the Benton County Farm Bureau, the Alsea high school and the extension service of the Oregon Agricultural college.

Rabbit Dinner.

While touring in northern Wisconsin one night two big rabbits ran into the road in front of my machine. They were blinded by the bright light from my headlights, and it was an easy matter to get out and catch them both. I had a good dinner the next day.—Exchange.

Do you want a clear skin—

Give Resinol Ointment and Resinol Soap a week's trial, and note the improvement. The bland, healing balsams in Resinol help it to rid the clogged pores of impurities and allay inflammation, blotches and roughness. It is especially suited to delicate skins.

Sufferers from eczema or other itching skin troubles will find quick relief in Resinol Soap and Resinol Ointment. Your druggist will tell you.

BOSTON STORE

The Stove that Cooks 9,000,000 Meals a Day

Three million kitchens with their daily three square meals. Meals that are cooked without the drudgery of kindling, coal hods, ashes and soot—cooked in kitchens that are cool, clean and comfortable.

The New Perfection Oil Cook Stove gives you that kind of kitchen comfort. It gives you controlled heat for any kind of cooking. A turn of the handle supplies the high, white-tipped blue flame—the hottest flame for fast cooking—or a low, even flame for slow boiling or simmering. The long, blue chimney

drives the heat directly against the utensil.

The ovens in these stoves are scientifically constructed to circulate fresh, hot air around the food, driving out the steam and maintaining an intense, even heat.

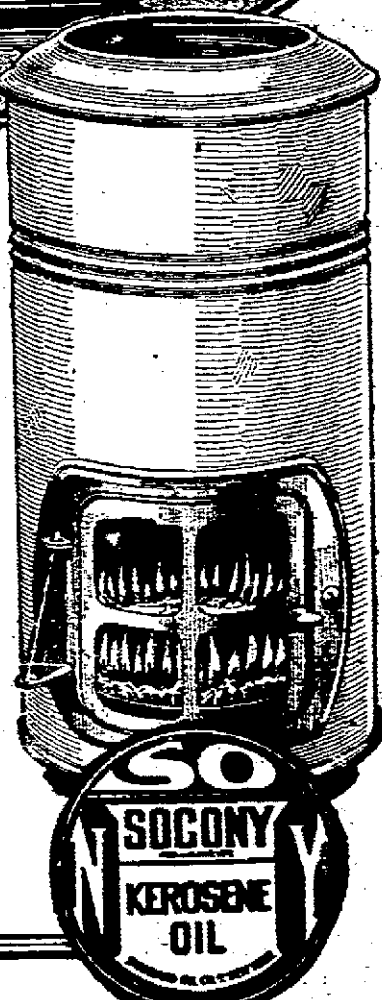

For your further convenience—the New Perfection Water Heaters furnish hot running water at a very low cost. They are adjusted to thousands of water systems the country over.

New Perfection Oil Cook Stoves and New Perfection Water Heaters are sold by dealers everywhere.

American School of Practipedics of Chicago, and he is here to serve you.

CHILD VICTIMS OF
SLAVERY ARE FOUNDProbers Discover Miners Are
Traded Like Live Stock
in Southland.Slavery in which children are made
to work for nothing and are "swapped"
like live stock—has been discovered in
Tennessee.Scores of prominent men are in-
volved in the expose and investigators
are preparing a mass of evidence to
show that for years men of influence
have bartered children, obtaining what
Judge J. E. Richards calls "actual
slaves" from the country industrial
school.Boys sent to the school for short
sentences have been "given" to plant-
ers and others and kept until they were
twenty-one years old. They were not
paid for their labor and received no
schooling whatever.It is impossible, investigators say,
to determine how extensive the slavery
has been, since the records were often
destroyed by school authorities.The whole system came to light when
Circuit Judge Pittman granted a ha-
beas corpus writ to release Alvin Lee
Crawford, fourteen-year-old negro, who
was working at the home of Magis-
trate T. T. McDonald.The boy was tried in the juvenile
court two years ago for using a horse
without the owner's consent. He was
sentenced to 30 days at the farm. He
was held a year and then Magistrate
McDonald "got him in a trade."McDonald had previously visited the
school and had a number of negro lads
lined up before him."I picked out a likely lad," says the
magistrate. "Later he became un-
ruly and I swapped him for this fel-
low."The boy had not been to school since
his farming out, although he had at-
tended prior to that time. McDonald
did not supply him with underwear in
the winter time, and he worked from
five o'clock each morning until eve-
ning, it is charged.McDonald said he didn't know he
had to send him to school.School trustees said they knew of
the system, but "didn't know it was
so bad."Both white and colored boys have
been involved.

Easy to Thread.

A Redditch needle maker has in-
vented a new kind of needle which
makes "threading" much more easy
than with the orthodox type. His needle,
instead of having a complete loop
for its eye, has a tiny gap in the loop,
into which the thread can be slipped
instantly without the wearisome dodg-
ing that the present type requires.OWES BIG DEBT
TO CHEMISTRYMuch of Industrial Wealth Can
Be Traced to Effort of
Some Scientist.

MOST FUNDAMENTAL SCIENCE

Has to Do With Food We Eat, Water
We Drink, Clothing We Wear, and
in Varying Degree With Every
Article in Commerce.

By W. LEE LEWIS.

(Head of the Department of Chemis-
try, Northwestern University and the
Discoverer of "Lewistite," the
Most Deadly Gas Ever Produced by
Man.)"Render unto Caesar the things that
are Caesar's."Beneath a simple grave in Northum-
berland, Pa., lies the dust of a hum-
ble English clergyman. He was
driven from his native land by re-
ligious intolerance, and sought and
found in America intellectual freedom.
This man, Priestly, never earned over
\$30 a year, yet he discovered oxygen
and laid the foundation of modern
chemistry.The great steel industries of our
country, the vast rubber business, the
tremendous packing interests would
deem it a rare privilege were this man
living, to contribute to his comfort,
and give him the scientific tools that
would gladden his heart, and to ac-
knowledge their immeasurable debt to
him. But for the man, Priestly, they
can only lay a wreath on his last rest-
ing place.Much of the great industrial wealth
of this country can be traced to the
effort of some obscure chemist, some
zealous devotee to pure science, who
thought little of self and who never
shared in the fruits of his researches.

Fundamental Science.

From the standpoint of material re-
sources chemistry is the most funda-
mental science. It has to do with the
air we breathe, the water we drink,
the food we eat, the clothing we wear
and, in varying degree, with every ar-
ticle that enters into commerce. Chem-
istry is the science of the composition
of matter, and matter is that upon
which energy, human and otherwise,
is expended. The science embraces
the star dust of outermost space, the
swirling volcanoes of sun gases, and
the bacteria that nibble our food.Consider the value of a single dis-
covery in abstract chemistry. Kirch-
off, over a hundred years ago, dis-
covered that starch could be con-
verted into sugar by dilute acids.
The United States alone is richer
by \$40,000,000 a year because of that
discovery. Perkin discovered mauve
in the coal tar dyes. Its value was
indexed by an immediate investment
of \$750,000,000.The mercerizing of cotton has added
to the delight and wealth of the
world. Recent improvements in the
incandescent lamp has meant a saving
of \$30,000,000 a year in the cost of
lighting. You may reach for a match
as you read this. If so, remember it's
chemical history, and pause to con-
sider its place in modern civilization.

Foundation of Many Industries.

Chemistry is the soul of the pack-
ing industry where by-products such
as digestive ferments, soap, glycerine,
fertilizers, etc., have become as im-
portant as main products. Chemis-
try is the foundation of the rubber in-
dustry, giving cheaper and better
processes of purifying, vulcanizing,
and recovering. Steel is not a native
product but is a chemically modified
product. It is stated that the Besse-
mer steel process adds \$20,000,000
to the world's wealth annually. Chem-
istry has given us the Davy lamp, the
mine gas indicator, the gas mask and
the standardized explosive. Chemis-
try has given us most of our pharma-
ceuticals, and chemo-therapy is just
in its infancy. Ehrlich made over 900
arsenical compounds before he struck
upon those particular combinations
known as "sarsalvarsan" and "neo-
sarsalvarsan." Chemistry has given us
photography, moving-picture films, il-
luminating gas, fire extinguishers, ar-
tificial gasoline, metallurgical pro-
cesses, water-softening and purifying
agents, synthetic fertilizers, insecti-
cides, paints, explosives, glass, paper,
the gas mantle, the storage battery,
the arc light and has stabilized many
an industry by working up into useful
products every trace of raw material.Chemistry has standardized food
products and multiplied the sources
of supply. It has attacked and par-
tially solved the population problem of
sewerage and waste disposal, and wa-
ter supply.Salving Big Problem.
There are 33,800 tons of nitrogen
pressing down upon every acre of the
earth's surface, and yet our fields are
starving for fixed nitrogen, and in
times of war our present source of
supply of nitrate for explosives is, to
say the least, precarious.Chemistry is today solving the prob-
lem of fixed nitrogen.To further elaborate chemistry's
contribution to human life would be
to write a technical history of indus-
trial development. The other great
contributing factors have been the or-
ganizing ability of business men and
the technical skill of the engineers.To improve American chemistry, to
apply it more and more as an ef-
ficiency measure in American industry,
is better national protection than pro-
tective tariffs, battleships or coast de-
fenses. The highest chemical ef-
ficiency will make us invincible in com-
merce and in war.As population increases and con-
servation becomes a matter of vital
importance, it follows that chemistry
must assume a more and more signifi-
cant place in the well-being of man-
kind. Chemistry belongs peculiarly to
the age of intensive utilization of a
country's resources. The cream-skim-ming period has passed; this is the
age of by-products.

Still Much to Be Done.

There is a danger that great indus-
trial organizations who owe their very
existence to the science of chemistry,
in the fullness of their present pros-
perity may forget their debt to the
past and their obligation to the future.
There is still much to be done in the
improvement of old processes and the
discovery of new. To handicap the
chemical laboratories of our educa-
tional institutions, whence comes the
stream of technically trained men, and
the unselfish contributions of pure
science, is effectual to kill the golden
egg.The universities cannot carry the
burden without the aid of enlightened
industrialism. They cannot raise the
price of their product to meet the ever-
increasing cost of laboratories, scien-
tific equipment, high-grade instruction
and pure research. No thinking man
can fail to recognize that the ranks of
the teaching profession, present and
prospective, are becoming seriously de-
pleted through the inability of our edu-
cational institutions to bear unaided
the problem of ever-increasing costs.
It is short-sighted policy for big
business to attract from the universi-
ties our best chemists, to pick before
they are ripe our young men in course
of training, or by a lack of sympathy
to support to jeopardize the future out-
put of scientific research.

Alps and the Rockies.

The Swiss Alps are traversed by rail
in five hours, but the magnificent
scenery between Calgary and Van-
couver lasts for 23 hours' rapid travel-
ing.

LOST IN WOODS FOR WEEK

Members of Railroad Crew Find Girl
Wandering About Near
Lacon, Ala.Mobile, Ala.—Miss Julia Danner,
member of a prominent family in Mo-
bile, was rescued by members of a
freight crew on the Gulf, Mobile &
Northern railroad, who found her
wandering about in the woods near
Lacon, Ala., five miles from Mobile.
The young woman, who had been con-
fined in a sanitarium because of a
breakdown, escaped a week before the
day on which she was rescued and ap-
parently suffered no ill effects from
her period of exposure. She has been
returned to her family in Mobile.While being carried back to home
and friends in the caboose of the Gulf,
Mobile & Northern train, Miss Danner
informed the crew that she had
eaten very little while in the woods.
She had drunk two bottles of soda
pop during her long tramp. When
asked what she did during the heavy
rainstorms which swept the country,
Miss Danner declared she found shelter
in the dense woods and under-
brush. She was scarcely damp when
found, though there had been a heavy
rain only an hour before she was dis-
covered.

Why Indeed?

A boy of eight was dining with his
father at a hotel where the manners
of the guests were not remarkable for
their elegance. Soon after they had
seated themselves at the table, the
youngster piped up with, "Daddy, why
do all the men say 'whoop' to their
soup?"

THIS WEEK ONLY

At the Store Named Below
A 10-Day Tube of PepsodentMake This Free Test
For the Sake of Whiter, Safer Teeth

All Statements Approved by High Dental Authorities

It is Film
that causes men's teeth to discolor
and that holds tobacco stains.It is Film
that clouds women's teeth, spoils
their glistening beauty and
is the basis of tartar.It is Film
which is responsible for decay in
children's teeth. It is the source
of most tooth troubles.

The dealers named below have been supplied with 10-Day Tubes of Pepsodent. This week a tube will be handed free to anyone who asks. Simply present the coupon. The purpose is to urge a test of this film-removing tooth paste, which leading dentists nowadays advise. Prove the results for your own sake and your children's sake. Learn what they mean to your teeth.

See How Your Teeth Look
When the Film is GoneThere is on your teeth a slimy film. You can
feel it with your tongue. It clings to the teeth,
gets between the teeth and stays.The tooth brush doesn't end it. The ordinary
dentifrice does not dissolve it. So it clings and,
night and day, it may do ceaseless damage.

The Tooth Wrecker

That film is the great tooth wrecker. Most
tooth troubles are now traced to it.The film is what discolors—not the teeth. It is
the basis of tartar. It holds food substance which
ferments and forms acid. It holds the acid in
contact with the teeth to cause decay.Millions of germs breed in it. They, with tartar,
are the chief cause of pyorrhea. Also of many
other troubles, local and internal.That is why well-brushed teeth so often dis-
color and decay, why tartar forms and pyorrhea
starts. You leave much of that film.Tooth troubles are constantly increasing, as
statistics show, despite the wide use of the tooth
brush. And the reason lies in that film.

Now We Combat It

Dental science, after years of searching, has now
found a way to combat film. Able authorities
have proved it by convincing clinical and labora-
tory tests. Thousands of dentists have proved it,
and at least a million people.The results are seen everywhere in clean,
whiter teeth. Some of your own friends have
them.For home use, this method is embodied in a
dentifrice called Pepsodent. And this week you
can test it at our cost.

Based on Pepsin

Pepsodent is based on pepsin, the digestant of
albumin. The film is albuminous matter. The
object of Pepsodent is to dissolve it, then to con-
stantly combat it.Pepsin long seemed impossible. It must be
activated, and the usual method is an acid harmful
to the teeth. But dental science has discovered
a harmless activating method. And that method,
used in Pepsodent, enables all to daily use this
efficient film combatant.

Watch the Results

We urge you to present the coupon. Get the
10-Day Tube and use like any tooth paste. Note
how clean the teeth feel after using. Mark the
absence of the slimy film. See how the teeth
whiten—how they glisten—as the fixed film
disappears.Compare the results with your old methods.
Then let your own teeth decide the method best
for you and yours.This is of lifetime importance. Don't neglect
it. Cut out this coupon so you won't forget.PAYS OFF

WAR ACTIVITY HUMS

Warsaw Is Crowded With Poverty-Stricken Refugees.

Women and Children Sleep on Snow-Covered Basement Floors.

Warsaw—Warsaw is a city with war activity and is crowded with refugees from Poland. The city is estimated to have increased from 1,000,000 to 1,500,000 since the world war began.

Everywhere there are refugees and soldiers. Military automobiles, trucks and various other vehicles of war traverse the streets all day and most of the night. The city life is as bright and gay as ever, but the refugees are crowded close at hand, hoping to find food and places to sleep. The problem of providing for them has baffled the city officials.

In the poorer districts basements which for generations were used for storage purposes have been used for refugees' sleeping quarters. In instances fifteen to twenty persons, and even more, sleep on a basement floor or stairs. Others have found shelter in stables or in buildings intended for schools. Many of these refugees are women with children who have come out of the east virtually without funds.

During the day these people are partly supplied with food by the municipality or some of the welfare organizations. Many exist only by begging.

Warsaw's tenements, always crowded as New York's east side has been for years, are jammed with humanity as never before, and during the severe winter weather, when there was an epidemic of influenza here, old men and women and children died by the hundreds every day in this land of the poor.

City officials see no relief in sight until warmer weather comes when they hope the people will gradually begin leaving for the country to work on farms.

Farmers, Attention!

We have a large assortment of fertilizer on hand for all crops. L. P. Butts, 66 Broad street, Oneonta, N. Y. advt 61

Ask your doctor if nut oils are not most wholesome and nutritious. His answer will convince you that you can buy nothing better than Junata brand nut margarine. advt 11

"Pure food means long life." There is no purer, more appetizing food on your dealer's shelves than Hy-grade Butterine. advt 41

GREAT RECORD AT HOG ISLAND

Ninety-eight Vessels Are Launched at Shipyard in 20 Months.

611,575 TONS FOR THE YEAR

More Than 700,000 Tons Added to the Nation's Merchant Marine by Philadelphia Plant—Vessels Have Steam-Engines and a Half Million Miles Waterway Developing Any Structural or Workmanship Weakness.

Adding more than three-quarters of a million deadweight tons of steel ships to the merchant marine of the United States in twenty months is the record set by the Hog Island shipyard at Philadelphia, when the ninety-eight ships constructed by the American International Shipbuilding Corporation recently were launched upon the waters of the Delaware.

The world's largest shipyard, according to figures compiled by the shipbuilding company, during the year ended March 31, 1920, launched a total of 611,575 deadweight tons of steel ships, or one vessel launched every twenty-nine working hours, and delivered 748,577 deadweight tons of steel ships, or one every thirty working hours.

Record at Hog Island. The tonnage launched at the Hog Island yard from August 5, 1918, to date is 20 per cent of the total tonnage of steel ships launched from all the shipyards of the United States during that period, and is one-twelfth of the total deadweight tonnage of steel ships launched from all the shipyards of the United States for the Emergency Fleet corporation.

The eighty-three cargo carriers delivered to the shipping board by the Hog Island yard have received the highest rating of the American bureau of shipping and the shipping board inspectors, while fifty of the vessels also received the highest classification from Lloyd's bureau.

Hog Island vessels have steamed 1,500,231 miles and have carried 1,002,300 tons of cargo. Eleven rescues have been effected at sea by the Hog Island ships.

Gives Good Service.

The "Quistcock," the first of the fabricated ships turned out, which was christened by Mrs. Woodrow Wilson in the presence of the nation's chief executive and a crowd of 100,000 persons, has a record of 60,000 miles steamed. After completing 37,500 miles the vessel was drydocked and carefully examined by shipbuilding experts, who found her intact. The bottom of the hull was scraped clean of barnacles and then repainted, and from the day of delivery, with this one exception, the vessel has been in constant service without showing any structural or workmanship weakness.

The figures issued by the shipbuilding company further show that the average daily working force during 1919 was 80,000, and the number of men employed 20,000, as of March 31, 1920. Rivets driven numbered 50,663,751, and 325,692 tons of steel were created.

The Hog Island shipyard covers an area of 927 acres and has a frontage of two and one-quarter miles. There are thirty-six warehouses in the shipyard and eighty-two miles of railroad track. The floor space of the buildings cover 103 acres.

LOCKS WHISKY IN A SAFE

Professor Knows Friends Are Honest, but Isn't Taking Any Chances.

Westfield, Mass.—Twenty quarts of bottled-in-burn whisky, owned by Prof. Lewis E. Allen, the noted pure food expert, has been kept in his safe since Jan. 26.

"I know my friends are honest," he says, "but I am taking no chances."

The whisky is required from time to time in the professor's research and experimental work, and he laid in a liberal supply before constitutional prohibitions went into effect.

Prof. Allen is working overtime trying to keep pace with the demand for analysis of wine-grade beverages.

One small bottle of home-made wine, which the owner assured him possessed a perfect record, proved to be 28 per cent alcohol, or from two to three times the alcoholic content of wines formerly offered for sale. Ethyl alcohol may have been added to the concoction, Prof. Allen thinks. At any rate, it is the most remarkable of the hundreds of "home-made drinks" he has analyzed.

Why Ocean Waters Are Never Still. The surface waters of the ocean are in constant motion under the influence of wind, waves, currents and drift. Waves are vertical oscillations caused by wind. Tides resemble waves in their motion but they are caused by the attractive force of the sun and moon. The horizontal movements of the surface waters are known as currents and drifts. A drift is a general movement under the influence of the wind, but slower and more changeable in direction than a current. Inland waters have a circulatory movement but the water usually differs in direction from the ocean.

Haw, Haw!

"It says here that if you want to develop anything you should exercise regularly," said the Old Fogey, as he looked up from the newspaper he was reading.

"Huh!" commented the Grouch. "If that was a fact, a woman's jaw would be as big as her chest."—Cincinnati Enquirer.

KEEPING CANDY PURE

Agricultural Department Tries to Protect Public.

Must Carry Label That Tells the Truth, Manufacturers Are Told.

Candy in interstate commerce, the United States department of agriculture tells the manufacturers, must be pure, and must carry a label that tells the truth. The box or container that goes to the consumer should bear a conspicuous label showing the net weight. When the candy is put up under the name of the wholesaler or jobber, the name appearing on the label should be preceded by "manufactured for" or some such words, so that the purchaser may know that the name is not that of the manufacturer. Mixed candies labeled "fruit flavors" are misbranded if any artificial fruit flavors are used. The word "maple" or even the picture of a maple leaf must not appear on the label of confections in which no maple sugar or syrup is used. A false or misleading statement appearing on the label is not cured by a correct statement somewhere else on the label.

On the question of purity, harmless colors that do not conceal inferiority are permitted. The use of shellac and other gums for coloring is prohibited. The department holds that saccharin is injurious to health and its use in candy is prohibited. Talc, terra alba, barytes, chrome yellow, alcohol, narcotic drugs and mineral substances of all kinds are specifically forbidden in confectionery by the terms of the law. The use of cocoa dust in the manufacture of chocolate goods is held to be objectionable. A harmless mineral oil may be used as a slab dressing if used in such way that little or none of the oil is incorporated in the finished candy. Any of the decisions or opinions relating to the application of the federal food and drugs act to confectionery may be obtained upon request from the bureau of chemistry, United States department of agriculture.

BELGIUM TO GET U. S. CATTLE

Chicago Among Cities From Which Regular Shipments Are to Be Made.

New York—A large and regular movement of cattle from this country, consigned to the Belgian government, will be started within the next few days, to continue throughout the greater part of the year.

It is understood that these animals will be used to replace war losses. They are to go by way of Boston to Antwerp. The consignor is P. Buros & Co. of Calgary, Can. Shipments will be made from northwestern Canada, Kansas City and Chicago direct to the large stockyards near Boston.

Between 3,000 and 4,000 head will be shipped each month. All of the cattle will be discharged at Antwerp.

Bargain in a Home.

Nearly new two-family house, centrally located, with living room, dining room, kitchen, bath, three sleeping rooms, four clothes closets for each family, also two complete sets of city water, sewer, toilets, bath, stationary ranges, gas and electric lights and furnaces, oak floors and hardwood trim. Fine place to live and can rent other part for \$70 per month or rent for 13 1/2 percent on investment. A bargain if sold at once. Fred N. Van Wieu. advt 41

You do not have to turn your clock ahead to find Anderson, he is up with the birds in the morning. Go and see him and buy a home the Building and Loan way. advt 11

GOOSE 92 YEARS OLD, CLAIM

Publicity Agent Says It Still Lays Eggs—Some Goose This One Bird.

Portsmouth, O.—From the publicity agent of a goose that lived at the home of Adolph Brunner, a merchant, comes the assertion that the fowl is ninety-two years old despite which important fact it continues to lay eggs. There, to be sure, is no birth certificate for the bird to produce as evidence.

Years ago Brunner bought the bird and extraordinary age was attached to the fowl by the seller. That it is old there is no question, but that it is on the road to the century mark is open to dispute.

This spring Brunner observed a goose and a younger goose, which he and his wife had made a nest. Brunner is now watching to see whether his old goose will hatch out the eggs which were laid under community suspicion, as it were.

Removal Notice.

Dr. Talbot's dental office is located at 154 Main street, over Hudson's Drug store.

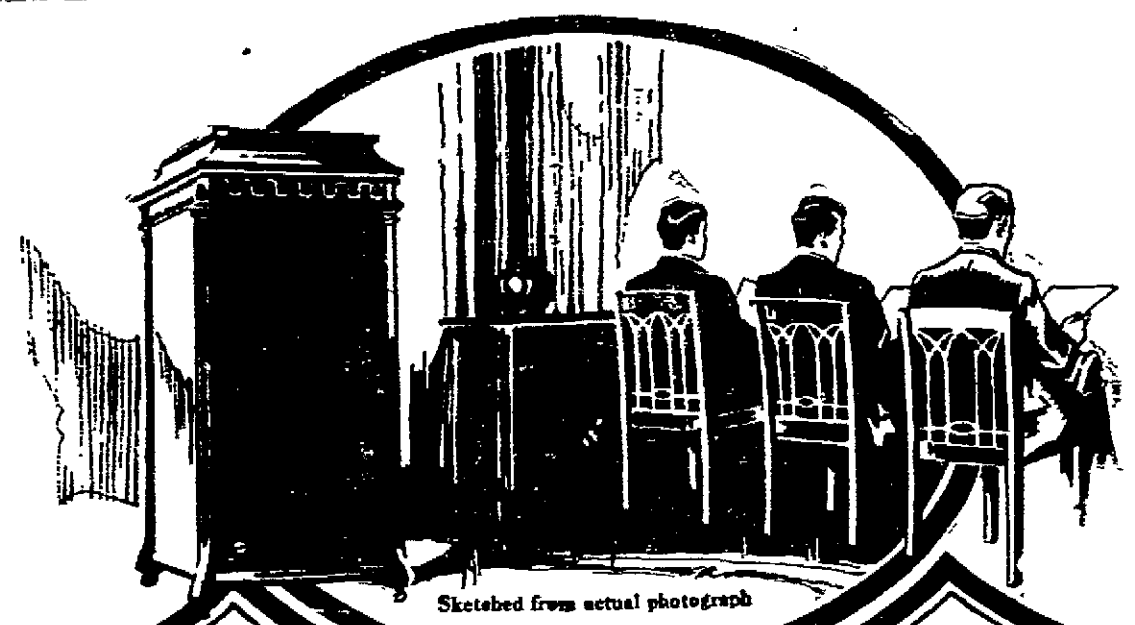

Wanted laborers to unload cars and wages. Apply F. J. McGinness, Union Stockkeeper, D. & H. shops. advt 21

"What's behind Us -Living singer or NEW EDISON?"

Don't you want to try this fascinating test of the New Edison's realism,—which caused distinguished psychologists to ask in amazement: "What's behind us, living singer or New Edison?"

Come in and hear Mr. Edison's Realism Test. See what sensations you'll get,—and determine for yourself whether listening to the New Edison produces the same emotions as listening to the living singer.

The three distinguished men of art and science in the picture are Dr. W. V. Bingham, Director of the Department of Applied Psychology, Carnegie Institute of Technology; Prof. C. H. Farnsworth, Director of the Department of Music, Teachers' College, Columbia University, and Wilson Follett, Esq., noted author and music critic. They tried the Realism Test at the Edison Shop, New York. They found that it brought into play their whole capacity to feel and to enjoy. They got sensations that were vivid and unique.

The REALISM TEST

proved in this vital demonstration, before scientists of international repute, that it is an ideal way for you to judge the New Edison.

It tells you precisely how effective is the New Edison's realism,—and what this realism means in terms of your own musical enjoyment.

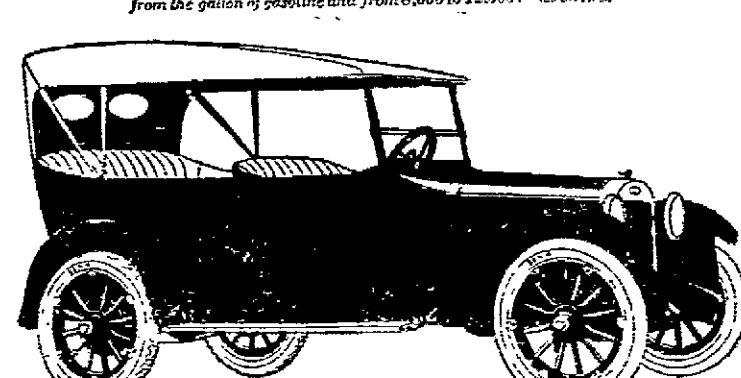

Please feel free to come in at any time, and make this unique experiment for yourself.

THE BUDGET PLAN—enable you to "finance" your purchase in that you can buy your New Edison without squandering your income. Ask about it.

Oakland owner's regularity report returns of from 15 to 25 miles from the gallon of gasoline and from 8,000 to 12,000 miles on tires

THE NEW OAKLAND SENSIBLE SIX TOURING CAR

OAKLAND SENSIBLE SIX

Becoming acquainted with the new Oakland Sensible Six four door Sedan is simply a matter of reaching for the telephone.

If you are too busy to come to our salesroom to view the car, we will, upon appointment, send an Oakland to call for you.

You will find the new model, the good Oakland of years past, although appreciably improved through heavier construction and advanced design.

Still scientifically light in total weight but endowed with increased strength and serviceability. It offers maximum utility at minimum cost.

The cars we are now showing preserve Oakland's traditional high power and complete economy, in combination with a stronger chassis of longer wheelbase.

No other automobile in the market offers a like measure of value, in performance, reliability and low maintenance cost.

1920 model has 35 improvements over 1919 model

OAKLAND SENSIBLE SIX

ALL MODELS ON HAND

Touring Car \$1,235. Roadster \$1,235. Four Door Sedan \$1,885. Coupe \$1,885. F. O. B. Pontiac, Mich. Additional for Wire Wheel Equipment, \$85.
